## **MATC New Hire Metrics**

**January 2026**

Talent Acquisition is preparing to roll out updated final guidelines for the recruitment process. These updates incorporate changes resulting from the audit conducted in June 2025 and are intended to strengthen consistency, compliance, and efficiency across all recruitment activities. Training on the updated guidelines will be delivered through the Learning Management System (LMS), allowing managers and hiring teams to complete the training at their convenience. In addition, time will be allotted during the live April All-Manager Meeting to address questions, provide clarification, and reinforce key expectations. A similar rollout and training approach is planned for updates related to employee-related questions to ensure alignment across processes.

Talent Acquisition continues to support outreach and hiring efforts through participation in community and educational job fairs. We will attend a Second Chance Job Fair on January 20, 2026, sponsored by Employ Milwaukee, to connect with candidates and expand access to employment opportunities. Additional job fairs are planned for March 2026 and will be announced next month. The MATC Job and Career Internship Fair is scheduled for March 4, and we will continue to support the college by engaging with students and promoting internship and employment opportunities.

### **Faculty Hiring Status**

As reflected in the metrics reports, 36 highly qualified faculty members have been hired over the past few months to support instructional and program needs. The candidate pool continues to reflect a diverse range of backgrounds, knowledge, skills, and abilities, contributing to a strong and inclusive workforce. In the upcoming months, Talent Acquisition will focus on hiring for the Fall semester to ensure adequate staffing levels. Our goal is to begin hiring in March and April, allowing sufficient time to onboard new faculty and ensure vacancies are filled before the end of the 2025–2026 academic year.

## **Part I: PROCUREMENTS**

### **Item 1: TRANSPORT BUS FOR ATHLETICS – DISTRICT-WIDE**

#### **Background Information:**

The MATC Athletic Department is requesting the purchase of a 52-passenger transport bus. The purchasing process for this vehicle was initiated and overseen by Randy Casey, Athletic Director.

Currently, the athletic department faces significant financial challenges due to the rising rental fees for transport bus rentals. Over the course of a year, these expenses amount to more than \$150,000, which puts a strain on the department and limits their ability to allocate funds to other essential areas of their programs. By purchasing a transport bus, they can significantly reduce these rental fees and redirect those funds towards enhancing the overall experience and support for MATC student-athletes.

Owning a dedicated coach liner would provide several noteworthy benefits:

- MATC would have the flexibility to schedule transportation for teams without worrying about the availability or cost of external rental services.
- This would allow efficient planning and ensure athletes arrive at competitions in a timely manner, minimizing the stress and logistical challenges associated with outside transportation.
- Owning a transport bus presents an excellent marketing opportunity for Milwaukee Area Technical College. The vehicle can be branded with the MATC college logo and colors, effectively serving as a moving billboard promoting the institution within the community and during away games. This increased visibility can contribute to raising awareness of the college and potentially attract new students and sponsors who appreciate the commitment to supporting our student-athletes.

In terms of cost savings, the long-term financial benefits of purchasing a coach liner are substantial. When considering the significant annual rental fees currently incurred, investing in our own vehicle would provide considerable cost savings over time. Additionally, we can explore revenue-generating opportunities by offering transportation services to external organizations or teams in need of reliable and comfortable transportation solutions. These additional income streams can further offset the initial investment and contribute to the sustainability of our athletic programs.

This purchase will be made under MATC BID 26-13 which meets all state of Wisconsin Procurement Requirements.

Five (5) vendors were directly solicited and the BID was posted on DemandStar:

- American Bus Sales
- Best Bus Sales
- Hoekstra Transportation Inc.
- Master's Transportation, Inc.
- Midwest Transit Buses

Three (3) vendors responded:

- Best Bus Sales
- Hoekstra Transportation Inc.
- Master's Transportation, Inc.

The requested vendor does not have HUB (Historically Underutilized Business)/minority status.

Positive action by the MATC District Board will result in a purchase from Hoekstra Transportation Inc of Grand Rapids, WI for a cost of \$394,000.00.

**Part I: PROCUREMENTS**

**Item 2: OPERATING ROOM TABLES – MILWAUKEE CAMPUS**

**Background Information:**

The Healthcare Pathway is requesting the purchase of three (3) Operating Room (OR) tables. The purchasing process for this equipment was initiated and overseen by Mary Peters-Wojnowiak, Associate Dean, Healthcare Pathway.

The Surgical Technology program is renovating the lab space that will now include three (3) functioning operating rooms. The purchase of three (3) refurbished OR tables will replace two (2) tables that are at end of life and supply a third table for the space. These tables are fully functional and will provide faculty the opportunity to improve on instruction by simulating true to life scenarios. The upgrade of this space will enhance teaching and learning experiences for Surgical Technology faculty and students.

This purchase will be made under Vizient Purchasing Cooperative Contract: Vizient - 3 (1251) which meets all state of Wisconsin Procurement Requirements.

The requested vendor does not have HUB (Historically Underutilized Business)/minority status.

Positive action by the MATC District Board will result in a purchase from Alliance Medical Corporation of Cedarburg, WI for a cost of \$103,663.77.

## **Part I: PROCUREMENTS**

### **Item 3: MILWAUKEE PBS PRODUCTION TRUCK – MILWAUKEE PBS**

#### **Background Information:**

Milwaukee PBS is requesting the purchase of a production truck. The purchasing process for this vehicle was initiated and overseen by J. Scott Byrd, Chief Technology Officer.

Milwaukee PBS is requesting the purchase of an upgraded Remote Production Truck to replace the 20-year-old truck currently in use. While the broadcast technology inside the truck has been upgraded a few times over the past 20 years, the truck itself has remained unchanged (other than a new wrap to update the Milwaukee PBS logo). Time has finally taken its toll and the engine struggles to carry the load up hills.

The proposed production truck will be roughly the same size to allow it to remain parked in the C Loading Dock, however, it will now include an expandable side to allow for more interior working space when parked. The larger working space will be a great improvement over the current cramped conditions and allow for upgrades to workstation layouts.

The proposal also includes a generator, which the current truck does not have. This will allow for greater flexibility on-site when shore power availability can be a challenge. We have had to rent large generators previously when shore power is not available which is expensive.

Most of the broadcast equipment in the current truck will transfer to the new truck, however, we will take the opportunity to upgrade some systems in the next fiscal year as we move towards higher definition productions (from HD to UHD).

This purchase will be made under MATC BID 26-14 which meets all state of Wisconsin Procurement Requirements.

Six (6) vendors were directly solicited and the BID was posted on DemandStar:

- Allied Broadcast Group
- Frontline Communications
- Gerling and Associates, Inc.
- Matthews Specialty Vehicles
- Quality Vans and Specialty Vehicles
- Rolltechs Specialty Vehicles

Two (2) vendors responded:

- Gerling & Associates, Inc
- LDV, Inc.

The requested vendor does not have HUB (Historically Underutilized Business)/minority status.

Positive action by the MATC District Board will result in a purchase from Gerling & Associates, Inc. of Sunbury, OH for a cost of \$650,547.00.

**Part I: PROCUREMENTS****Item 4: USED VEHICLES FOR AUTOMOTIVE LABS – OAK CREEK CAMPUS****Background Information:**

The Manufacturing Pathway is requesting the purchase of four (4) used late model vehicles. The purchasing process for this equipment was initiated and overseen by Daniel Young, Instructor, Automobile-Mechanical.

The four vehicles requested for purchase will be used to provide equitable access to new technology vehicles for all students in the Auto1 program. All four vehicles have modern features that some of the older, school owned, vehicles in the Auto shops do not. These features are necessary to comply with the ASE Education Foundation standards that the Auto1 program must comply with to maintain Accreditation.

The vehicles will be used in Auto1-306 Heating and Air Conditioning for their R1234-yf refrigerant systems which are being used on more modern vehicles due to their low impact on global warming.

The vehicles will be used in Auto1 322, 324 and 326 for their gasoline direct injection systems, and adherence to modern emission requirements. These are features that some of the older vehicles on campus do not carry.

The vehicles will be used in Auto1 314, 316, and 318 for their many modern electrical features. Some of these features include: multiple data bus networks, 20 plus control modules per vehicle, smart key systems, remote sliding door, automatic liftgate, etc. Some of the vehicles on campus have these features, but there are not enough for each student to work on one at the same time.

Overall to ensure each student learns the course curriculum; while maintaining safety and industry standards, it is necessary for the Auto1 program to continually update our inventory of vehicles for the students to work on.

This purchase will be made under the Sole Source classification of Used Equipment which meets all state of Wisconsin Procurement Requirements.

The requested vendor does not have HUB (Historically Underutilized Business)/minority status.

Positive action by the MATC District Board will result in a purchase from REO Motors of Milwaukee, WI for a cost of \$90,000.00.

**Part II: CONSTRUCTION**  
**Item 1: RENOVATION AND REMODELING**  
**DMC H to T Skywalk Cafe**  
**MATC Bid Reference #2025-017 – Project #2025522**

**Background Information**

Previously, the Board approved lists of renovation and remodeling capital projects for budget years. The projects and funding plan were also approved as part of respective year budget approvals.

This project involves the renovation of an existing antiquated classroom on the third floor of the T-Building to accommodate the Skywalk Cafe for MATC students, faculty, staff, & visitors. The café will serve prepared sandwiches, soups, bakery items, smoothies, snacks, cold drinks, and coffees. The cafe fare will be very similar in their offerings as the C-Store and State Street Coffee Shop located in the S-Building. The cafe will have a floating ceiling system with LED lighting, updated HVAC with digital controls, fire alarm devices, sprinkler heads, plumbing, kitchen equipment, casework, overhead door, & service door.

This renovation project will also include updating the H-T Skywalk. This common space is a popular space for students to eat, study, collaborate, socialize, etc. The space is also used as an event venue at times. The Green Roof is accessed from this skywalk, and functions as an extension for these same activities. This space will receive new ceiling and wall finishes, LED lighting, updated HVAC with digital controls, furniture, & carpet in some areas. There will be a new vending alcove constructed at the west end of the skywalk. This space will conceal vending machines, and have casework with a hand washing sink, microwave, and an ice/water dispensing machine.

The contract recommended for approval below is for a single prime contract that pertains to the general construction for the previously mentioned areas.

Bid documents for the aforementioned work were prepared in accordance with Board policies and State regulations, and advertisements were placed in the Daily Reporter, the Milwaukee Courier and the Spanish Journal. **The bids were opened on January 13, 2026 with the following results which include the Base Bid, Alternates 1,2, and the Allowance.**

All income derived from such investments shall be regarded as revenues of the District. No such investment shall be in such a manner as would cause the Notes to be "arbitrage bonds" within the meaning of Section 148 of the Code or the Regulations of the Commissioner of Internal Revenue thereunder.

The District Treasurer or other officers shall, on the basis of the facts, estimates and circumstances in existence on the date of closing, make such certifications as are

necessary to permit the conclusion that the Notes are not “arbitrage bonds” under Section 148 of the Code or the Regulations of the Commissioner of Internal Revenue thereunder.

Section 10. Sale of Notes. The terms, conditions and provisions of the Notes and the Note Documents are, in all respects, authorized and approved. The form of the Note Purchase Agreement is hereby approved. The Notes shall be sold and delivered in the manner, at the Purchase Price, plus interest accrued from the Interest Accrual Date to the closing date, pursuant to the terms and conditions set forth in the Note Purchase Agreement.

The preparation of the Preliminary Official Statement and the Final Official Statement, and their use as contemplated in the Note Purchase Agreement, are hereby approved. The Preliminary Official Statement is “deemed final” as of its date, except for omissions or subsequent modifications permitted under Rule 15c2-12 of the Securities and Exchange Commission. The Chairperson, the Vice Chairperson and Secretary of the District are authorized and directed to do any and all acts necessary to conclude delivery of the Notes to the Underwriter, as soon after adoption of this Resolution as is convenient.

Section 11. Book-Entry Only Notes. The Notes shall be transferable as follows:

(a) Each maturity of Notes will be issued as a single Note in the name of the Securities Depository, or its nominee, which will act as depository for the Notes. During the term of the Notes, ownership and subsequent transfers of ownership will be reflected by book entry on the records of the Securities Depository and those financial institutions for whom the Securities Depository effects book entry transfers (collectively, the “Participants”). No person for whom a Participant has an interest in Notes (a “Beneficial Owner”) shall receive bond certificates representing their respective interest in the Notes except in the event that the Securities Depository or the District shall determine, at its option, to terminate the book-entry system described in this Section. Payment of principal of, and interest on, the Notes will be made by the Fiscal Agent to the Securities Depository which will in turn remit such payment of principal and interest to its Participants which will in turn remit such principal and interest to the Beneficial Owners of the Notes until and unless the Securities Depository or the District elect to terminate the book entry system, whereupon the District shall deliver bond certificates to the Beneficial Owners of the Notes or their nominees. Note certificates issued under this Section may not be transferred or exchanged except as provided in this Section.

(b) Upon the reduction of the principal amount of any maturity of Notes, the Registered Noteowner may make a notation of such redemption on the panel of the Note, stating the amount so redeemed, or may return the Note to the District for exchange for a new Note in a proper principal amount. Such notation, if made by the Noteowner, may be made for reference only, and may not be relied upon by any other person as being in any way determinative of the principal amount of such Note Outstanding, unless the Note Registrar initialed the notation on the panel.

(c) Immediately upon delivery of the Notes to the purchasers thereof on the delivery date, such purchasers shall deposit the bond certificates representing all of the Notes with the Securities Depository. The Securities Depository, or its nominee, will be the sole Noteowner of the Notes, and no investor or other party purchasing, selling or otherwise transferring ownership of any Notes will receive, hold or deliver any bond certificates as long as the Securities Depository holds the Notes immobilized from circulation.

(d) The Notes may not be transferred or exchanged except:

(1) To any successor of the Securities Depository (or its nominee) or any substitute depository ("Substitute Depository") designated pursuant to (ii) below, provided that any successor of the Securities Depository or any Substitute Depository must be a qualified and registered "clearing agency" as provided in Section 17L of the Securities Exchange Act of 1934, as amended;

(2) To a Substitute Depository designated by or acceptable to the District upon (a) the determination by the Securities Depository that the Notes shall no longer be eligible for depository services or (b) a determination by the District that the Securities Depository is no longer able to carry out its functions, provided that any such Substitute Depository must be qualified to act as such, as provided in subparagraph (1) above; or

(3) To those persons to whom transfer is requested in written transfer instructions in the event that:

(i) The Securities Depository shall resign or discontinue its services for the Notes and, only if the District is unable to locate a qualified successor within two months following the resignation or determination of noneligibility, or

(ii) Upon a determination by the District that the continuation of the book entry system described herein, which precludes the issuance of certificates to any Noteowner other than the Securities Depository (or its nominee) is no longer in the best interest of the Beneficial Owners of the Notes.

(e) The Depository Trust Company, New York, New York, is hereby appointed the Securities Depository for the Notes.

Section 12. Undertaking to Provide Continuing Disclosure. The (i) Chairperson or the Vice Chairperson and (ii) Secretary of the District are hereby authorized and directed to execute on behalf of the District, the Continuing Disclosure Agreement in connection with the Notes for the purpose of complying with the requirements of Rule 15c2-12 promulgated by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended.

### Section 13. Compliance with Federal Tax Laws.

(a) The District represents and covenants that the project financed by the Notes and their ownership, management and use will not cause the Notes to be “private activity bonds” within the meaning of Section 141 of the Code, and the District shall comply with the provisions of the Code to the extent necessary to maintain the tax-exempt status of the interest on the Notes.

(b) The District also covenants to use its best efforts to meet the requirements and restrictions of any different or additional federal legislation which may be made applicable to the Notes, provided that in meeting such requirements the District will do so only to the extent consistent with the proceedings authorizing the Notes and the laws of Wisconsin, and to the extent there is a reasonable period of time in which to comply.

Section 14. Rebate Fund. If necessary, the District shall establish and maintain, so long as the Notes are outstanding, a separate account to be known as the “Rebate Fund” for the purpose of complying with the rebate requirements of Section 148(f) of the Code. The Rebate Fund is for the sole purpose of paying rebate to the United States of America, if any, on amounts of bond proceeds held by the District. The District hereby covenants and agrees that it shall pay from the Rebate Fund the rebate amounts as determined herein to the United States of America.

The District may engage the services of accountants, attorneys, or other consultants necessary to assist it in determining rebate amounts. Amounts held in the Rebate Fund and the investment income therefrom are not pledged as security for the Notes and may only be used to pay amounts to the United States. The District shall maintain or cause to be maintained records of such determinations until six (6) years after payment in full of the Notes and shall make such records available upon reasonable request therefor.

Section 15. Defeasance. When all Notes have been discharged, all pledges, covenants and other rights granted to the owners thereof by this Resolution shall cease. The District may discharge all Notes due on any date by irrevocably depositing in escrow with a suitable bank or trust company a sum of cash and/or bonds or securities issued or guaranteed as to principal and interest of the U.S. Government, or of a commission, board or other instrumentality of the U.S. Government (“Government Obligations”), or of securities wholly and irrevocably secured as to principal and interest by Government Obligations and rated in the highest rating category of a nationally recognized rating service, maturing on the dates and bearing interest at the rates required to provide funds sufficient to pay when due the interest to accrue on each of said Note to its maturity or, at the District's option, if said Note is prepayable to any prior date upon which it may be called for redemption, and to pay and redeem the principal amount of each such Note at maturity, or at the District's option, if said Note is prepayable, at its earliest redemption date, with the premium required for such redemption, if any, provided that notice of the redemption of all prepayable Notes on such date has been duly given or provided for.

Section 16. Resolution a Contract. The provisions of this Resolution shall constitute a contract between the District and the owner or owners of the Notes, and after issuance of any of the Notes no change or alteration of any kind in the provisions of this Resolution may be made, except as provided in Section 18, until all of the Notes have been paid in full as to both principal and interest. The owner or owners of any of the Notes shall have the right in addition to all other rights, by mandamus or other suit or action in any court of competent jurisdiction, to enforce such owner's or owners' rights against the District, the Governing Body thereof, and any and all officers and agents thereof including, but without limitation, the right to require the District, its Governing Body and any other authorized body, to fix and collect rates and charges fully adequate to carry out all of the provisions and agreements contained in this Resolution.

## Profile

Milwaukee Area Technical College District is one of the largest technical college systems in Wisconsin, providing vocational education to residents of Milwaukee County, the majority of Ozaukee County, and small portions of Washington and Waukesha counties.

## Detailed credit considerations

Milwaukee Area Technical College District's strong credit profile will continue to be supported by a very large tax base, solid financial position and relatively low leverage. The \$133 billion tax base benefits from ongoing development and a diverse employment base consisting of a large manufacturing presence and sizable healthcare, financial and governmental components. Following some enrollment declines through 2022, the trend has reversed and the district has increased enrollment by over 1,000 students through the 2025-2026 school year.

We expect financial reserves will remain strong. The fiscal 2026 budget is essentially balanced. Management notes that the year is tracking very close to budget and does not expect any material changes in reserves. Available fund balance in the operating funds totaled about 29% of revenue in fiscal 2025. On a full accrual basis, the net current asset position was about \$146 million, equal to about 48% of revenue. Property taxes and state funding each account for about one third of the district's total revenue.

The district also holds about \$100 million in cash in its Federal Communications Commission (FCC) trust, which is subject to certain stipulations on its use. The district received a one-time payment of about \$85 million in July 2017 as a result of MATC's participation in the FCC broadcast incentive auction, created to free up bandwidth to accommodate the growing capacity needs for wireless technology. These funds have been placed in a trust, with a policy stipulating that annual disbursements for operations are limited to 4.5% of the average fund balance over the previous twenty rolling quarters. The college intends to spend the funds on several core

priorities, including program expansions and enhancements. Although we do not anticipate it being necessary, the funds could be freed up in the event of an emergency at the discretion of the board of directors.

## ESG considerations

### Environmental

Environmental risk is generally low for the local government sector and does not factor materially into the district's credit profile. Milwaukee County, where the district is located, has moderate to low exposure to several of the environmental factors considered. The county maintains a comprehensive plan for mitigation, preparedness, response and recovery in the event of disaster.

### Social

Social considerations factor into the district's credit profile. Resident income is below-average for the Aa1 rating with median family income estimated at about 84% of the nation. The population has been generally stable since the 1990s and the unemployment rate now mirrors the state and the county's unemployment rate typically tracks slightly higher than the state's.

### Governance

Wisconsin community college districts have an Institutional Framework score of "A," which is moderate. Revenue raising ability is moderate. The sector's major revenue source, state aid, is based on a formula that incorporates enrollment and equalized property valuations of the district. The sector's other major revenue source, property tax revenue, is subject to a cap which can only be increased with net new construction or via referendum. Revenue and expenditures tend to be predictable. Across the sector, fixed and mandated costs are generally moderate.

Governance is a key credit consideration for all local government issuers. The district's strong fiscal management has resulted in a solid financial profile in recent years, which we anticipate will continue. MATC's board is comprised of nine members (three employee members, three employer members, two elected officials and one school administrator). Members must be residents of the district. The board is appointed by school district board presidents within the district and confirmed by the Wisconsin Technical College System Board. These members are appointed for staggered three year terms and elect a Chairperson, Vice Chairperson, Secretary and Treasurer for one year terms. The board is also empowered to employ a district president to conduct the day-to-day operations of the district.

To the Citizens, Board of Directors, College Community and the Other Stakeholders of the Milwaukee Area Technical College District:

The administration of Milwaukee Area Technical College District (District), also known as Milwaukee Area Technical College (MATC), presents the Annual Comprehensive Financial Report (ACFR) for the Fiscal Year 2025 (July 1, 2024 to June 30, 2025).

MATC is proud to serve more than 30,000 students with more than 180 associate degree, technical diploma, certificate and apprenticeship programs; providing a path to a family-sustaining income and strengthening the community we share.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including the various forms of disclosure (statements, graphs, tables and footnotes), rests with MATC's administration. To the best of our knowledge and belief, the presented data is accurate in all material respects and is presented in a manner designed to present fairly the financial position and results of operations of MATC. All disclosures necessary to enable the reader to gain an understanding of MATC's financial activities have been included.

This report, in our opinion, has been prepared in conformity with generally accepted accounting principles and is consistent with the legal reporting requirements of the State of Wisconsin. To supplement the required disclosures, the ACFR has been prepared with additional data in a readable format that provides a comprehensive summary of the District's financial data and operating results to meet the varying needs of the District's citizens, taxpayers, students, employees, financial institutions, intergovernmental agencies, community-based agencies and the Wisconsin Technical College System.

This ACFR is organized in three sections:

Introductory	Transmittal letter, District board members, organization charts
Financial	Management's Discussion and Analysis (MD&A), the independent certified public accountants' report, financial statements, notes to financial statements, required supplementary information and supplementary financial information
Statistical	Unaudited financial information, demographic information and other statistical data generally presented on a multi-year basis

Generally accepted accounting principles require that administration provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of the MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with the MD&A.

## **MILWAUKEE AREA TECHNICAL COLLEGE DISTRICT**

### **College Provides Critical Services with a Challenging Budget**

MATC relies on three primary funding sources – student tuition and fees, District property tax and State support. Tuition is set by the Wisconsin Technical College System (WTCS). To accommodate the financial limitations of students and their families, a statutory tuition policy, which is based on a projection of costs and enrollments, is used by WTCS to establish District tuition rates. District property tax levies are subject to a revenue limit under current state law that prohibits WTCS's 16 technical colleges from increasing their operational property tax levy amount by more than the increase in net new construction.

Between 2010 and 2022, U.S. public two-year and technical colleges lost roughly 2.5 million students, according to the National Student Clearinghouse Research Center. More recently, however, that trend has reversed. In spring 2025, undergraduate enrollment at public two-year colleges grew by 5.4%—the strongest increase of any higher-education sector. Year over year, fall 2024 enrollment at these institutions rose 5.8% compared with fall 2023, with vocational and trade-oriented colleges driving much of the growth.

Milwaukee Area Technical College (MATC) outpaced national gains, posting a 6.8% enrollment increase. The overall resurgence is being fueled largely by an uptick in dual-enrollment students—high schoolers taking college courses—as well as strong enrollment growth among adults aged 25 and older returning to school.

Greater Milwaukee communities turn to MATC to foster economic growth and viability by providing liberal arts and technical education, training, leadership and technological resources. Communities include those municipalities within the District (Milwaukee County, most of Ozaukee County, and portions of Washington and Waukesha counties) as well as the groups of people it serves (students, businesses and taxpayers). MATC connects its students and partners with area businesses and economic development organizations, responding with programming to meet current needs and anticipating where job growth is likely to take place. MATC proactively enhances its infrastructure and programming to ensure readiness to meet future needs. MATC has, since inception, helped people acquire knowledge and skills that will prepare them for a rewarding future in business, industry, health and service occupations.

## MILWAUKEE AREA TECHNICAL COLLEGE DISTRICT

### MATC is Transforming Lives, Industry and Community

MATC offers **more than 180 affordable, high-quality programs connecting students to careers in as little as one to two years and a less expensive path to a four-year degree through more than 40 college and university transfer partners.** Credentials include associate of arts degrees, associate of science degrees, associate in applied science degrees, technical diplomas, advanced technical certificates, apprenticeship programs and other adult education services. The college also offers an accredited Adult High School, GED/HSED programming and English as a Second Language courses.

The college is accredited by the **Higher Learning Commission**, a regional accreditation agency that accredits degree-granting colleges and universities that are based in a 19-state region of the United States.

### Return on Investment

**Serving more than 30,000 students annually**, MATC contributes over **\$1.4 billion in annual economic activity by our students, alumni, faculty and staff**, according to a January 2023 report from the respected labor market analytics firm Lightcast.

Graduates earn a significant return on the investment they make in MATC. For every dollar a student invests in the form of out-of-pocket expenses, the report found, he or she receives a cumulative of \$6.10 in higher future earnings. This calculation takes into account money that students would have earned had they been working instead of attending college.

Those future earnings add up. **The average MATC associate degree graduate will experience \$421,000 in higher earnings throughout their working years compared to someone with only a high school diploma or equivalent.** Society as a whole benefits from an increased economic base, raising prosperity in Wisconsin.

Taxpayers also will see **\$35.4 million in present value social savings connected to lower crime, lower unemployment, and increased health and wellness levels**, according to the report.

## **MILWAUKEE AREA TECHNICAL COLLEGE DISTRICT**

### **Building the Region's Diverse Middle-Skill Workforce**

For more than a century, the college has responded to the urgent needs of the region it serves. Today, in the Milwaukee area and Wisconsin, the need for skilled workers remains. Key statistics underline the challenge: More than half of Wisconsin jobs — 55% — are middle-skill, according to the National Skills Coalition, yet just 48% of Wisconsin workers are trained to the middle-skill level and just 39% of Milwaukee County residents age 25+ have at least an associate degree, according to the U.S. Census Bureau. At the same time, our region has untapped talent: more than 180,000 adults in the MATC District have not received education beyond high school and another 135,000+ adults in the district have some college but did not earn a degree.

MATC is uniquely positioned to meet this need by activating untapped talent and economic mobility, while meeting industry needs for a workforce with in-demand skills. Meeting industry needs is an ongoing focus for the college. The below efforts outline additional examples of this capacity in action.

### **Affordability**

Breaking down the financial barriers that stand between students and the education that provides a family-sustaining wage is critical. Milwaukee has historically ranked as one of the poorest large cities in the U.S.

MATC addresses this challenge by providing affordable pathways to in-demand careers. The college's costs for one year of tuition are a fraction of the cost of other higher educational opportunities at \$4,984 (associate degree or technical diploma) or \$6,265 (four-year transfer courses) for 2024-25 compared to as much as \$7,466 for a four-year public university and \$33,820 for area private colleges and universities.

Even with affordable tuition, a college education remains out of reach for far too many students. MATC scholarships are unlocking the doors to opportunity. These public-private partnerships leverage federal and state financial aid with private donations filling the gap between what aid provides and the cost of tuition.

## **MATC Scholarships**

The MATC Promise for New High School Graduates was the first program of its kind in the state. In 2018, the college announced a major expansion and introduced the MATC Promise for Adults, which covers tuition for eligible adults to complete a degree connected to an in-demand career field. The MATC Promise for Adults is one of the nation's first college-based adult Promise programs.

Since both programs began, MATC has served more than 3,800 qualified students, 75%+ of whom are students of color. More than 800 students have already earned certificates, technical diplomas or associate degrees.

### **Interconnected: Industry Partnerships, Workforce Solutions and the MATC Foundation**

Industry Partnerships. Public-private industry partnerships are a way of business at the college. More than 900 industry representatives help keep the curriculum current by serving on advisory committees. In the manufacturing sector, that means new advanced manufacturing programs to meet the needs of current and future employers.

Workforce Solutions. To meet the workforce needs of individual organizations and industry or geography-based groups of businesses, the college's Workforce Solutions department is a critical partner. MATC Workforce Solutions helps organizations upskill their teams, close their skills gaps and develop talent with customized and on-site training.

Philanthropic Support through the MATC Foundation. As the college's philanthropic partner, the MATC Foundation secures private contributions to expand access to education by providing scholarships, student emergency assistance, and industry-supported program investments. Since the launch of the MATC Promise in 2016, the Foundation has significantly increased support of rising student need - awarding \$18.55 million in scholarships, \$1.16 million in emergency grants, and supporting 15,493 students across the district. During that time, annual support grew from \$395,000 for 505 students in 2016 to \$5.25 million for 2,926 students in 2025, a 600% increase in the number of students served each year. This growth reflects the expanding impact of scholarship programs and the community's continued investment in helping students gain the skills needed for in-demand, family-supporting careers.

In addition, the MATC Foundation is building on a pattern of major industry support. In 2021, Froedtert Hospital announced a \$6 million gift to the MATC Foundation, creating a 20-year fund that established the Froedtert Memorial Hospital Scholarship for eligible students in the college's Healthcare Academic & Career Pathway.

Also in 2021, MATC was selected for the inaugural cohort of the Johnson Controls Community College Partnership program. This support - \$100,000 to the MATC Foundation, annually for four years - enabled MATC to expand its high-quality, in-demand Heating, Ventilation and Air Conditioning (HVAC) program and establish an MATC HVAC training site at Milwaukee Public Schools' Barack Obama School of Career and Technical Education. This partnership provides earlier access to training in an in-demand career field and offers high school students the opportunity to earn college credit.

In 2025, the MATC Foundation received an additional \$300,000 commitment over three years from Johnson Controls, ensuring uninterrupted training for the next generation of professionals who will keep buildings safe and comfortable.

### **High School Partnerships**

MATC's work to build the workforce and transform the lives of students begins before students enter college. The college continues to grow these opportunities. Since 2017-18, the college has significantly grown the number of students served and credits earned through dual enrollment, which allows students to earn both high school and college credit.

That year, MATC served about 1,900 students in dual enrollment program, which has approximately doubled to 3,643 by 2022-23. In the last year alone, the number grew by 8%. In 2017-18, these students earned 7,472 credits, more than doubling to 17,107 credits in 2022-23.

Dual enrollment efforts include students in Milwaukee and communities around the district.

### **Serving Justice-Impacted Individuals - Second Chance Pell**

To meet the needs of all students, MATC was the first Wisconsin college to issue "Second Chance Pell Pilot Funding." The program allows eligible justice-impacted students to receive Pell Grants to fund education that will prepare them for in-demand careers. Successful graduates become eligible for skilled jobs and a family-supporting wage.

MATC offers several programs to help justice-impacted individuals take charge of their futures and shape their destinies.

**Associate degrees** are 60-credit programs which are available to individuals at 12 of the state's 20 correctional institutions. MATC graduated 145 Associate of Arts and Associate of Science degrees, with several scholars earning both degrees.

Classes are virtual. Preference is given to students who:

- Are within 2-5 years of mandatory release
- Demonstrate a financial need
- Have little or no financial support available from family
- Have a positive Conduct Report history

**In-person Welding** courses are offered at MATC's Education Center at Walker's Square for two of the state's Correctional Centers. The Second Chance Welding Fundamentals is a 17-credit certificate program and has been a huge success since the program started in 2018:

- 75 justice-impacted scholars have earned certificates
- Of the 75, seven have earned Welding Technical diplomas
- 100% of individuals in the program have found employment after release
- More than half of 215 participants have graduated with a 3.5 or greater GPA

## **Re-Entry Services**

MATC offers classes, technology, materials, employment partnerships and support services to justice-impacted individuals, including those who were formerly incarcerated.

Our goal is to reduce barriers for successful re-entry, increase employability skills and opportunities, and reduce recidivism.

## **Guided Pathways to Improve Success**

To help more students graduate, meet employer needs and ensure economic growth, the college continues to implement a new student experience that drives greater success. MATC is using the nationally recognized Guided Pathways model. The 2023-24 academic year was the fourth in which all students experienced this new model.

Guided Pathways puts students on a career path, helps students stay on the path, and provides more intentional and intensive support to reduce performance gaps across student groups so all students can succeed.

To support this new student experience, MATC reorganized its 180+ programs into seven Academic and Career Pathways and each features a team designed to serve students' academic and nonacademic needs. The college also reorganized its overall structure, including a new integrated academics and student services team that models the integrated support found in each Pathway.

The college enhanced this work through participation in Achieving the Dream, a network of 250 community and technical colleges “focused on helping their students, particularly low-income students and students of color, achieve their goals for academic success, personal growth and economic opportunity.”

And as a leader in equity in higher education with a commitment to success for all students, Milwaukee Area Technical College has joined “Moon Shot for Equity,” a national initiative led by education firm EAB aimed at ending equity gaps in higher education by 2030.

All of these efforts have yielded results. Most notably, more of our students are graduating on time. The graduation rate for students coming to college for the first time and seeking a degree has grown by 6 percentage points in the last two years alone. (Specifically, this refers to those who started in Fall 2018 and completed by Fall 2021 compared to those who started in Fall 2020 and finished in Fall 2023). In addition to more students graduating, the rate of students transferring to a four-year university also grew by 6 percentage points over the past two years. Our four-year transfer programs are among our most popular.

### **Sustainable Activities**

MATC is deeply committed to improving its operational sustainability and educating its students on sustainable real-world solutions while equipping them with knowledge and skills for the sustainable economy. MATC offers comprehensive, interdisciplinary education and training opportunities in energy engineering, environmental health and water quality technology, culinary arts, horticulture, natural sciences, sociology, economics, sustainability and renewable energy. The college's offerings in wind, solar and geothermal energy are built on the solid foundation of programs in basic energy engineering and technology. The Center for Energy Conservation and Advanced Manufacturing (ECAM) provides six instructional laboratories that feature a full complement of renewable energy technologies.

In FY25, energy efficiency projects included continual efforts lighting conversions to LED, HVAC updates including digital controls upgrades resulting in increasing comfort and reducing energy consumption, and maintenance of existing renewable sites. Projects completed in FY25 received rebates in Focus on Energy incentives. The wind turbine at the Mequon Campus continues to be a strong energy producer in FY25. The solar arrays at the Mequon Campus and Oak Creek Campus performed well producing electricity as predicted in FY25. MATC started the high efficiency boiler project at the Downtown Milwaukee Campus that will receive \$100k+ incentives from Focus on Energy once complete in addition to reduced energy costs, and reducing the dependence on the steam utility.

### **Milwaukee PBS: A Community Resource**

The MATC District Board is the license holder for Milwaukee PBS, WMVS and WMVT, and digital channels 10.1 - 10.3 and 36.1 - 36.3. The station produces four ongoing local series and airs numerous specials throughout the year, in addition to noncommercial education and entertainment programs. The stations also provides digital-only content for the Milwaukee PBS website and YouTube channel. The stations are available at no cost to viewers who use an antenna.

The stations:

- Are available to an estimated 2.1 million potential viewers
- Reach as far south as northern Illinois, west into Jefferson County and north into Sheboygan and Fond du Lac counties
- Serve as the hands-on training facility for over 90 MATC students in the Television and Video Production and eProduction associate degree programs.

## **Accounting System**

In developing and improving the District's accounting system, consideration is given to the adequacy of internal controls. Internal accounting controls within the District are designed to provide reasonable assurance regarding:

- The safeguarding of assets against loss from unauthorized use or disposition
- The reliability of financial records for preparing the basic financial statements and maintaining accountability for assets
- The preparation of easily interpreted financial statements
- The concept of reasonable assurance recognizes that the cost of the control should not exceed the benefits to be derived
- The evaluation of costs and benefits requires estimates and judgments by management

The District maintains a Finance Division that is responsible for developing and monitoring controls, developing and monitoring the budget, internal and external financial reporting, coordinating external audits and reviews, and financial analysis. All internal control evaluations occur within the above framework. We believe the District's internal accounting and administrative controls adequately safeguard assets, provide reasonable assurance as to the proper recording of financial transactions and provide meaningful information to aid in administration.

## **Budgetary System**

The District's annual budget is prepared by fund and function on the basis of sources and uses of funds in accordance with requirements of the Wisconsin Technical College System Board. These budget requirements include administrative review, public hearings, and passage by the MATC District Board prior to June 30, of each year. When the MATC District Board adopts the budget, it establishes the proposed dollar amount of the operational and debt service tax levy, not the final mill rates. Actual valuation figures are not available until October, at which time operational and debt service mill rates are established. Budgeted amounts are controlled by function within funds, with modification or changes of the approved budget possible upon approval by a two-thirds vote of the MATC District Board. Capital outlays for multi-year projects are budgeted in total upon the planned inception of the project.

## **Cash Management**

In keeping with the District's policy, all investments of excess funds are made in a conservative, prudent and secure manner. Cash temporarily idle during the year is invested in the State of Wisconsin Local Government Investment Pool, and savings accounts at JP Morgan Chase Bank.

## **MILWAUKEE AREA TECHNICAL COLLEGE DISTRICT**

### **Risk Management**

MATC has joined the other colleges in WTCS to form District Mutual Insurance, which provides insurance for property, liability, worker's compensation and other risk insurance. Prior to 2004, MATC self-insured worker's compensation and continues to resolve claims based on injuries that occurred during the self-insurance period. The District continues to be proactive in its approach to safety and job health issues. Employees are trained in the proper use of personal protective equipment, such as proper footwear and eyewear, dust and mist respirators, hard hats, blood-borne pathogens and noise protection. The District also conducts loss control surveys, inspects the premises for exposures and makes appropriate corrections. In addition, the District has a self-insured status for health and dental insurance. The District also works closely on employee relations, student services and academic areas to minimize risk of litigation in those areas.

### **Economic Future**

The Milwaukee County region is positioned for steady growth over the coming years, but accompanies demands for a workforce with adaptability and learnability. The new national economic focus limiting exports signals an increase in manufacturing, construction, and technology sectors, so MATC's pathways in Manufacturing, Construction & Transportation Pathway continue to map well to employer needs. Alternatively, the adoption of AI and robotics is reducing the demand for mathematical, warehouse and some entry level occupations, however other STEM-related and skilled trade sectors remain unaffected. According to projections from the Wisconsin Department of Workforce Development, Milwaukee County employment is expected to grow slightly from the current 3.7% which historically correlates to increases in enrollment. The demand for upskilled employees possessing learnability underscores MATC's role serving Milwaukee County.

### **Independent Audit**

An annual audit of the basic financial statements of the District by a firm of independent certified public accountants is required by MATC District Board policy. This requirement has been complied with, and the independent auditors' opinion is included herein.

## **Independent Auditors' Report**

To the Board of Directors of  
Milwaukee Area Technical College District

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the accompanying financial statements of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of the Milwaukee Area Technical College District, as of and for the years ended June 30, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the Milwaukee Area Technical College District's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of the Milwaukee Area Technical College District, Wisconsin, as of June 30, 2025 and 2024 and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Milwaukee Area Technical College Foundation, Inc., a discretely presented component unit. Those statements were audited by other auditors, whose report has been furnished to us, and our opinions, insofar as it relates to the amounts included for Milwaukee Area Technical College Foundation, Inc. are based solely on the report of the other auditors.

#### ***Basis for Opinions***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (GAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Milwaukee Area Technical College District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of Milwaukee Area Technical College Foundation, Inc. were not audited in accordance with *Government Auditing Standards*.

#### ***Emphasis of Matter***

As discussed in Note 1, the Milwaukee Area Technical College District adopted the provisions of GASB Statement No. 101, *Compensated Absences*, effective July 1, 2024. Our opinions are not modified with respect to this matter.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Milwaukee Area Technical College District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Milwaukee Area Technical College District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Milwaukee Area Technical College District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Milwaukee Area Technical College District's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the Introductory Section and Statistical Section as listed in the accompanying table of contents but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2025 on our consideration of the Milwaukee Area Technical College District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Milwaukee Area Technical College District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Milwaukee Area Technical College District's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

(UNAUDITED)

Milwaukee Area Technical College District (MATC or District) Management's Discussion and Analysis (MD&A) of the District's financial condition provides an overview of financial activity for Fiscal Year 2024-2025 (FY24-25), identifies changes in financial positions when compared with Fiscal Year 2023-2024 (FY23-24) and is provided to assist the reader of the accompanying financial statements with focusing on the noteworthy financial issues for FY24-25 and FY23-24.

The primary mission of a public institution of higher education is to provide education and training. In addition, MATC actively participates in community activities and operates Milwaukee PBS. The District prioritizes maintaining financial viability to ensure it can continue to meet its mission into the future. Therefore, net position is accumulated as required to ensure that there are sufficient reserve funds for future operations and implementation of new programs. The MD&A provides summary level financial and operations information and should be read in conjunction with the accompanying financial statements and statistical summaries.

The Annual Comprehensive Financial Report (ACFR) is an accumulation of various financial, statistical and informational reports which focus on the financial condition of the District, the results of operations and the cash flows of the District as a whole. The ACFR is prepared in accordance with the generally accepted accounting principles, as stated in the Governmental Accounting Standards Board Statement 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, and Statement 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities*.

## Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses and Changes in Net Position presents the revenues earned and expenses incurred during the operation of the District during a fiscal year (July 1, to June 30). Activities of the District are reported as either operating or non-operating.

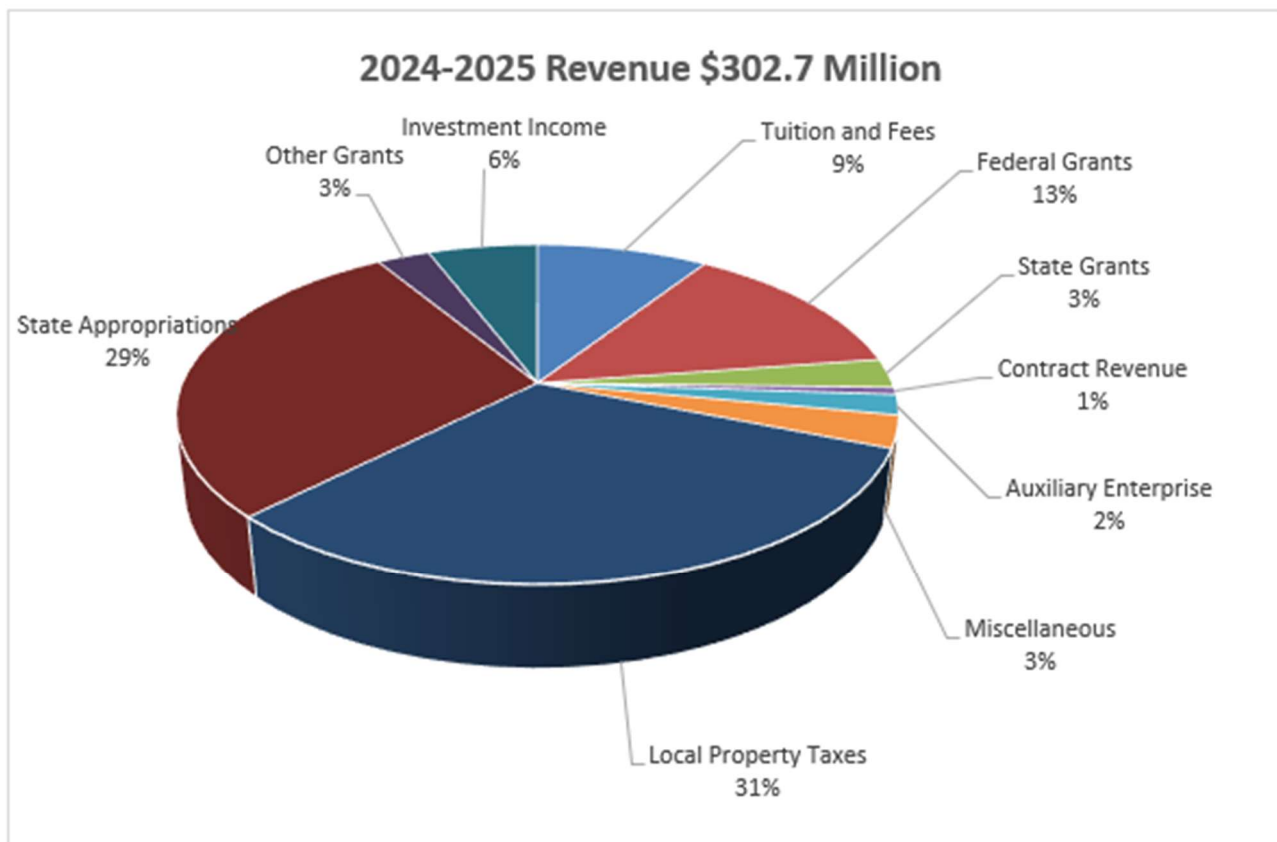

Operating activities include the general unrestricted operation, the restricted special revenue operations, the capital projects (facility construction, renovations and equipment purchases) operations, the debt service operation, the enterprise operations (Milwaukee PBS, Food Service, Book Stores, Child Care and the downtown Milwaukee parking garage). As a public college, the District reports an operating deficit or loss, since the financial reporting model classifies state appropriations and property taxes as non-operating revenues. The reduction of the capital assets associated with its use is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life.

### Revenues:

The following presentation and discussion evaluate both operating and non-operating revenue. Three years of information is presented to allow the reader to evaluate trends.

- **Operating revenues** are the charges for services offered by the college.

#### **FY 2024-25**

- Tuition and Fees Revenue grew \$2,981,579 (6.9%) compared to the prior year, though this increase was substantially offset by a \$2,868,908 (198.2%) rise in scholarship allowances. Consequently, net Tuition and Fees Revenue advanced by just \$112,671 (0.41%), while actual full-time equivalent (FTE) enrollment climbed 6.77% year-over-year.
- Federal Revenues climbed \$8,306,029 (25.5%) in FY2025, driven predominantly by a \$6,315,933 (26.1%) increase in Pell Grant awards to students.
- FY2025 State Grants fell by \$54,240, a decrease of 0.65%.
- FY2025 Auxiliary Revenues grew by \$398,357, up 7.3% from the prior year.

▪ **Operating revenues (Cont.)**

**FY 2023-24**

- Tuition and Fees Revenue experienced an increase of \$6,480,377, or 30.7%. This was primarily due to an increase in enrollments and a 1.9% increase in tuition. Actual full-time equivalents (FTEs) increased 4% from prior year enrollments.
- Federal Revenues have decreased by \$12,795,659, or 28.2%, in FY2024. This substantial decrease is due to the expected expiration of Higher Education Emergency Relief Fund (HEERF) grants. These funds had been used to cover institutional expenses incurred in responding to the Pandemic.
- State Grants have increased by \$1,245,037, or 17.4%, in FY2024.
- Auxiliary Revenues have increased slightly in FY2024 by \$210,157, or 4.0%.

- **Non-operating revenues** represents funds that are obtained to support operations but are not directly related to operating activity. Wisconsin legislation subsidizes the operating expense of the sixteen (16) technical colleges by authorizing the allocation of state General Purpose Revenue (GPR) and authorizing the individual colleges to levy property taxes in the municipalities which they serve.

**FY 2024-25**

- Property tax revenue grew by \$1,850,364 (1.98%) in FY2025, reflecting allowable adjustments to MATC's District Revenue Limit based on increased valuations from aggregate new construction.
- The District received \$2,528,177 more in State appropriations during FY2025, representing a 2.98% increase.
- MATC recorded \$17,718,524 in investment income during FY2025, reflecting the impact of the decrease in interest rates.

▪ **Non-operating revenues (Cont.)**

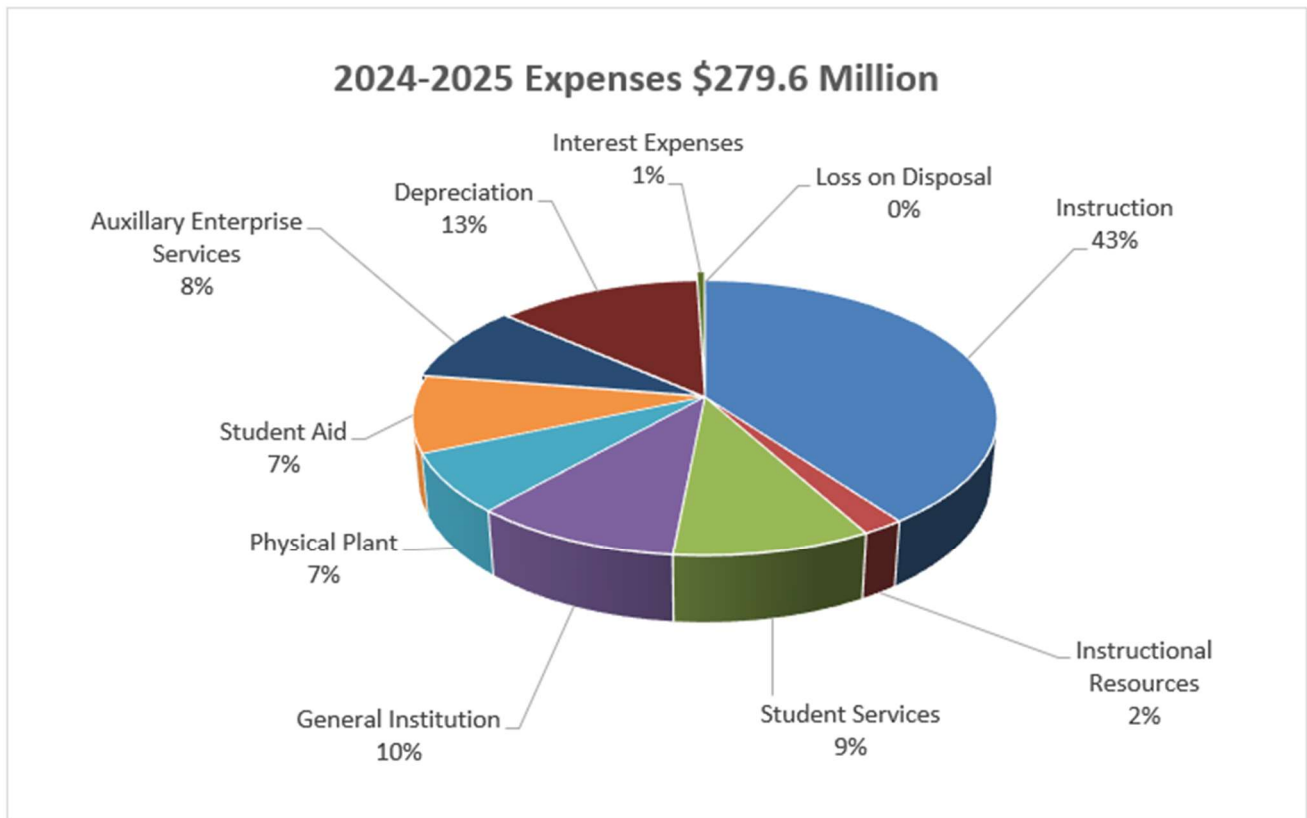

**FY 2023-24**

- Property tax revenue increased by 1.9%, or \$1,790,110, in FY2024 due to allowable increases to MATC's District Revenue Limit due to District valuation increases for aggregate new construction.
- State appropriations increased by \$398,494, or .5%, in FY2024.
- MATC is reporting \$11,927,995 in investment gains in FY2024, driven by an increase in interest rates.

**Expenses:**

- **Operating expenses** are costs related to the programs of the District.

#### **FY 2024-25**

- Total Operating expenses grew by \$19,402,358 in FY2025, with the largest increases occurring in Instruction (\$11,083,770), General Institutional (\$4,236,048), Student Aid (\$3,328,622), and Depreciation (\$1,869,932). These gains were partially offset by reductions in Physical Plant (\$1,707,044) and Student Services (\$563,069). The redistribution across functional categories reflects increased compensation and fringe benefit costs, along with revised actuarial assumptions for prior-period other postemployment benefit (OPEB) obligations. Under Wisconsin Technical College System (WTCS) guidelines, prior-period OPEB expenses are reported as General Institutional costs, while current-period expenses are allocated to their respective functions. Additional increases include Institutional Support (\$176,357) and Auxillary Services (\$977,742).

- **Operating expenses (Cont.)**

**FY 2023-24**

- Total Operating expenses decreased by \$8,265,010 in FY2024, primarily driven by decreases of \$7,694,262 in Student Service and Student Aid off-set by an increase of \$2,995,169 in Physical Plant, \$575,668 in Instruction and \$529,964 in Instructional Resources expense. This shift in expense between functions is a result of lower actuarial assumptions related to prior period other postemployment benefit costs (OPEB) . Prior period OPEB expenses are classified as General Institutional costs when they related to a prior period but when considered a current period expense the cost is allocated to the specific function, per the Wisconsin Technical College System (WTCS). Additional reductions include a decrease of \$1,744,543 in General Institutional and \$2,599,154 in Auxiliary Services Expense.

- **Non-Operating expenses** consist of interest expense associated with debt issued to finance capital projects and equipment.

**FY 2024-25**

- FY2025 interest expense grew by \$1,007,319 (56.6%), attributable to increased borrowing costs stemming from the broader upward trend in interest rates.

### FY2024-25

- The District's cash and investments rose \$6,778,276, a 3.1% increase in FY2025, primarily attributable to investment performance within the FCC Trust.

### FY 2023-24

- Cash and investments increased by \$8,593,083, or 4.1%, in FY2024 primarily due to investment gains reported by the District's FCC Trust.

The District has diversified sources of revenue consisting of local property taxes, State aid, student fees, federal and state grants, and other sources to meet the expenses of the District.

### **Capital Assets and Debt Amortization**

This District's investment in capital assets as of June 30, 2025 and 2024 amounted to \$265,816,916 and \$258,914,837 (net of accumulated depreciation) respectively. This investment in capital assets includes land, land improvements, buildings and improvement, assets under construction and movable equipment.

As of June 30, 2025 and 2024, the District had general obligation debt outstanding of \$78,725,000 and \$76,780,000, respectively. The District's general obligation debt continues to maintain a Moody's Investor Service of Aa1 rating, and the District continues to meet its entire debt service requirement. Ninety (90) percent of all general obligation debt is scheduled to be repaid in five years. The debt reflects a borrowing of \$44 million in the current year to finance investment in energy consumption reduction efforts, instructional equipment needs and information technology needs. The current debt adequately replaces, maintains and expands equipment and facility needs of the District.

More detailed information about the District's capital assets and long-term liabilities are presented in Notes 10 and 6 respectively of the financial statements enclosed.

### **Economic Factors**

The District is the largest in the WTCS group of technical colleges. The District consists of Milwaukee County, Ozaukee County and small portions of Washington and Waukesha Counties. This area is fortunate to have strong baccalaureate colleges which have articulation agreements with the District. The area attracts large employers and startup businesses. Moody's believes that employment opportunities and long-term economic stability will return to the region based on the sizable manufacturing, financial, governmental and health care sectors within the district's boundaries. The District's bonds are rated Aa1, the City of Milwaukee's bonds are rated A3, Ozaukee County has an AAA rating, next to the highest, and Milwaukee County is rated Aa2 by Moody's.

The key to Milwaukee and the surrounding areas economic sustainability is having a workforce trained for the new jobs that will be created during the next five years. Individuals, community leaders as well as employers are looking to the District to provide such training. Jobs in health care, green manufacturing and renewable energy and energy efficiency will be included. The District has been developing curriculum to meet these changing needs for several years and is prepared to meet the challenge.

The Milwaukee metropolitan area has a strong history as a major manufacturing center, particularly as a world leader in capital equipment production. Many nationally and internationally known companies are located in the District. The companies participate in diverse markets including heavy plate welding, energy management, aerospace, defense, robotics, medical equipment, software development and gaming design.

Metropolitan Milwaukee is also one of the world's leaders in manufacturing industrial controls, x-ray apparatus, mining machinery, hoists, industrial cranes as well as speed changers, drives and gears. Printing, publishing, advertising and meat production are included in the soft goods industries.

Wisconsin's cultural, commercial and financial center is located in the City of Milwaukee. The Milwaukee Symphony Orchestra, the Florentine Opera, the Milwaukee Bucks and Brewers all call Milwaukee home. The Milwaukee Museum, Zoo, Discovery World, The Harley Davidson Museum and Milwaukee Art Museum are all destination locations drawing tourism to the city.

The stability of the metropolitan Milwaukee area as a business and residential area has long been strengthened by financial resources provided through some of the largest banks in the Midwest. There are numerous savings and loan associations, credit unions, investment banks and other financial establishments in the Milwaukee Metropolitan Area.

The unique mix of business opportunities and metropolitan entities provides the District an economic base that has varying economic cycles. Unlike metropolitan areas such as Pittsburgh or Detroit that were heavily involved in one or a few industries, Milwaukee has weathered economic changes better than most urban communities. While the highs are not as high the lows are not as low. Milwaukee has demonstrated that it can reinvent its strong economic base as industry and technology evolves.

The District has acted as good stewards of its resources during Fiscal Year 2024-2025 and is prepared financially and operationally for the challenges that accompany the diverse and evolving economic climate.

### **Request for Information**

This MD&A and associated financial and statistical reports are designed to provide a general overview of the District's finances for those with an interest in the financial operations of the District. Questions concerning the information provided in these reports or requests for additional financial information should be addressed to the Chief Financial Officer at 700 West State Street, Milwaukee, WI 53233.

## Notes to Financial Statements

June 30, 2025 and 2024

### 1. Summary of Significant Accounting Policies

The Board of Directors (Board) of the Milwaukee Area Technical College District (District) oversees the operations of what is generally referred to as Milwaukee Area Technical College (MATC) under provisions of Chapter 38 of the Wisconsin Statutes. The geographic area of the District includes all of Milwaukee County, most of Ozaukee County and parts of Waukesha and Washington Counties. The District operates a comprehensive campus in downtown Milwaukee as well as additional locations and eleven evening learning centers in the surrounding communities. All of the instructional programs are fully accredited by the Higher Learning Commission. The District also operates two public television stations, WMVS and WMVT.

The Board consists of nine members appointed by elected presidents of school boards within the service area, and, as such, is a stand-alone government. The members are appointed to staggered three-year terms. Board membership includes five employers, two additional members, one school district administrator and one elected official who holds a state or local office. As the District's governing authority, the Board has powers which include:

- Authority to borrow money and levy taxes;
- Budgetary authority; and
- Authority over other fiscal and general management of the District which includes, but is not limited to, the authority to execute contracts, to exercise control over facilities and properties, to determine the outcome or disposition of matters affecting the recipients of the services being provided and to approve the hiring or retention of key management personnel who implement Board policy and directives.

The District offers over 200 associate degree and technical diploma programs. In addition, the District offers an associate of arts/science college transfer program and various advanced technical programs, ESL (English as a second language), basic skills education and adult continuing education.

The accounting policies of the District conform to generally accepted accounting principles as applicable to public colleges and universities as well as those prescribed by the Wisconsin Technical College System Board (WTCSB). The following is a summary of the more significant accounting policies.

#### Reporting Entity

The reporting entity for the District consists of the primary government (the District) and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if (1) it appoints a voting majority of the organization's governing body and it is able to impose its will on that organization, (2) it appoints a voting majority of the organization's governing body and there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on, the primary government, (3) the organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on, the primary government. Certain legally separate, tax exempt organizations should also be reported as a component unit if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units or its constituents; (2) the primary government or its component units, is entitled to or has the ability to access, a majority of the economic resources received or held by the separate organization and (3) the economic resources received or held by an individual organization that the primary government or its component units, is entitled to or has the ability to otherwise access, are significant to the primary government.

## **Milwaukee Area Technical College District**

---

### **Notes to Financial Statements**

June 30, 2025 and 2024

Component units are reported using one of two methods, discrete presentation or blending. Generally, component units should be discretely presented in a separate column in the financial statements. A component unit should be reported as part of the primary government using the blending method if it meets any one of the following criteria: (1) the primary government and the component unit have substantively the same governing body and a financial benefit burden relationship exists, (2) the primary government and the component unit have substantively the same governing body and management of the primary government has operational responsibility for the component unit, (3) the component unit serves or benefits exclusively or almost exclusively the primary government rather than its citizens or (4) the total debt of the component unit will be paid entirely or almost entirely from resources of the primary government.

#### **Component Unit**

The District has identified the following organization as a component unit and has included it in this report.

The Milwaukee Area Technical College Foundation, Inc. (Foundation), is a not-for-profit corporation whose purpose is to solicit, hold, manage, invest and expend endowment funds and other gifts, grants and bequest exclusively for the maintenance and benefit of the District. The Foundation is managed by an independent board of directors. MATC provides office space, certain equipment and furnishings, most utility services and insurance coverage to the Foundation without charge. The Foundation's resources are almost entirely for the benefit of MATC and the "entitlement/ability to access" criterion is met because the Foundation has a history of supporting MATC with its economic resources. The financial resources of the Foundation are significant to the District as a whole and, accordingly, the Foundation is presented as a discretely presented component unit of the District.

Separately issued financial statements of the Foundation may be obtained from the Foundation administration office.

#### **Measurement Focus, Basis of Accounting and Financial Statement Presentation**

For financial reporting purposes, the District is considered a special purpose government engaged only in business-type activities. Accordingly, the District's financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the years for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. All significant intra-District transactions have been eliminated.

In June 2022, the GASB issued Statement No. 101, Compensated Absences. This Statement requires that liabilities for compensated absences be recognized in financial statements prepared using the economic resources measurement focus for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. This standard was implemented July 1, 2024.

The postemployment benefit trust fund is used to report resources that are required to be held in trust for the members and beneficiaries of postemployment benefit plans. Fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note.

### **Notes to Financial Statements**

June 30, 2025 and 2024

The preparation of financial statements in conformity with generally accepted accounting principles requires District management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### **Budgetary Data**

The District's reporting structure used in the preparation of the basic financial statements is different from the fund structure used for budgetary accounting. Annual budgets are adopted for all funds in accordance with the requirements of the Wisconsin Technical College System Board. The process includes an administrative compilation and review of campus and departmental requests, public hearings and approval by the District Board prior to June 30 of each year. Capital outlays for multi-year projects are budgeted annually in the Capital Projects Fund upon planned inception of the project.

Local property taxes are levied on a calendar year basis by various taxing municipalities located in Milwaukee, Ozaukee, Waukesha and Washington Counties. The District records as revenue its share of the local tax when levied.

Annual budgets are prepared on a different basis from the basic financial statements by recognizing encumbrances as expenditures and by recognizing revenues related to encumbrances. Also, the budget does not incorporate changes related to GASB Statements Nos. 34, 35, 37 and 38.

The legal level of control for each budget is by function within each fund. Budget amendments during the year are legally authorized. Budget transfers (between funds or functions) and changes in expenditures (appropriations) require approval by a vote of two-thirds of the entire membership of the Board and require publishing a Class I public notice in the District's official newspaper within 10 days according to Wisconsin Statutes. The budget was modified during the year and also subsequent to the fiscal year end. These budget modifications reflect (1) actual property tax revenues in excess of estimates; (2) changes in expected state aid payments, both for the current year and prior year adjustments; (3) changes in expected federal student grants and (4) various other minor adjustments. Expenditures may not exceed appropriations. Unencumbered appropriations lapse at the end of each fiscal year. Under operational procedures, management is authorized to make budget transfers within fund and function.

#### **Property Tax, Student and Other Receivables**

In October of each year, the District communicates its property tax levy to the municipal treasurers in its service area. The levy consists of two parts - an operating levy and a debt service levy. December property taxes are then levied by the municipal treasurers who attach an enforceable lien on the properties as of January 1.

Taxpayers have various options of paying their property taxes depending upon the municipality's payment schedules. Payments are due from the municipalities by the 15th or 20th of the month following the taxpayers' due date. The first payment is due January 15 and the last payment is due August 20 (the last payment from the City of Milwaukee is due November 15). Property taxes receivable at June 30, generally represent the District's share of the outstanding second installment of property taxes due from municipal treasurers. The municipal and/or county treasurers review their unpaid property tax assessments in early August and are required by law to remit the balance of the District's levy on or before August 20.

Collection of delinquent taxes or the subsequent filing of tax liens are the responsibility of municipalities. The District receives all tax receivables from the intergovernmental collection intermediaries, so an allowance for uncollectible taxes is not recorded.

## **Milwaukee Area Technical College District**

---

### **Notes to Financial Statements**

June 30, 2025 and 2024

Student receivables; covering tuition and fees, textbooks and student loans; are valued net of the estimated uncollectible amounts.

Agency receivables and contract receivables for services are valued net of the estimated uncollectible amounts.

### **Cash and Cash Equivalents**

Cash includes amounts in petty cash, demand deposits and other short-term interest-bearing deposits.

For purposes of the statement of cash flows, cash on hand, demand deposits with financial institutions, investments in the Local Government Investment Pool and other short-term investments with maturity dates of less than ninety days from when purchased are considered cash equivalents.

### **Inventories**

Inventories are valued at the lower of first-in, first-out (FIFO) cost or market. Such inventories include food and food service supplies, contents of the bookstores and certain other supplies related to the operations of the District's enterprise activities.

Instructional and administrative inventories are accounted for as expenses when purchased.

Inventories are valued net of estimated slow moving and/or obsolete inventories.

### **Prepaid Expenses**

Prepaid expenses represent payments made by the District for which benefits extend beyond the current fiscal year end.

### **Capital Assets**

Capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their estimated acquisition value at the time of receipt. Interest costs incurred during construction are not capitalized and are not considered to be material.

The costs of maintenance and repairs are charged to operations as incurred. Major outlays for equipment, buildings and improvements are capitalized. Equipment purchases having costs of \$5,000 or greater and estimated useful lives of longer than one year are capitalized and depreciated. Building or remodeling projects with costs equal to or greater than \$15,000 and estimated useful lives of longer than one year are capitalized and depreciated. Depreciation on equipment, buildings and improvements is provided on purchases of \$5,000 or more. Depreciation on equipment, buildings and improvements is calculated in amounts sufficient to allocate the cost of the depreciable assets to operations using the straight-line method over the estimated service lives, which range from three to twenty years for equipment and twenty to forty years for improvements and buildings.

### **Compensated Absences**

Employees are granted vacation and sick leave benefits in varying amounts in accordance with the provisions of the employee handbook and District policy. Liabilities for vacation and salary related payments, including social security taxes, are recorded when accrued. Vacation benefits lapse if not utilized in the year subsequent to that in which they are earned. In the event of retirement or death, the District is obligated to pay all unused vacation benefits.

## **Milwaukee Area Technical College District**

---

### **Notes to Financial Statements**

June 30, 2025 and 2024

In the event of retirement of an employee, the District is obligated to pay one half of unused sick leave up to 45 days at the current salary rate. The District has accrued sick leave and salary related payments based on the District's prior experience with employees remaining and receiving payment. The accrued sick leave is the amount reasonably expected to be paid out. The liability for sick leave consists of current and long-term portions. The current portion has been estimated based on prior experience. See Footnote No. 6 for outstanding balances as of June 30, 2025 and 2024.

#### **Tuition and Fees**

Tuition and fees are recorded as revenue in the period in which the related activity or instruction takes place. Tuition and fees attributable to the summer school program are recognized in the subsequent year.

#### **Unearned Revenues**

Unearned revenues include amounts received for tuition, fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Unearned revenues also include amounts received from grant and contract sponsors that have not yet been earned.

#### **Self-Insurance**

The District is self-insured for a portion of the risks related to employee health and dental claims. The accrued liability for estimated claims represents an estimate of the eventual loss on claims arising prior to year-end including claims incurred but not yet reported.

#### **Long-Term Obligations**

Bond premiums are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium.

#### **Environmental Remediation Liability**

Expenses for environmental remediation costs are recognized at the time when it is determined that it is probable that a liability has been incurred and the amounts can be reasonably estimated.

#### **Deferred Inflows of Resources**

A deferred inflow of resources represents an acquisition of net assets that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

#### **Deferred Outflows of Resources**

A deferred outflow of resources represents a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense) until that future time.

#### **Subscription-Based Information Technology Arrangements**

The District reports a subscription liability and an intangible right-to-use capital asset (known as the subscription asset) on the financial statements. The District has a policy to recognize subscriptions over \$5,000 as a subscription liability and intangible capital asset.

## Milwaukee Area Technical College District

### Notes to Financial Statements

June 30, 2025 and 2024

#### Scholarship Allowances and Student Aid

Financial aid to students is reported in the financial statements under the alternative method, as prescribed by the National Association of College and University Business Officers (NACUBO). Certain aid (loans, funds provided to students as awarded by third parties and Federal Direct Lending) is accounted for as third-party payments (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expenses represents the portion of aid that was provided to the student in the form of cash.

Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed on a total District basis by allocating the cash payments to students, excluding payments for services, on the ratio of all aid to the aid not considered to be third party aid.

#### Pensions

The fiduciary net position of the Wisconsin Retirement System (WRS) has been determined using the flow of economic resources measurement focus and accrual basis of accounting. This includes for purposes of measuring the following:

- Net Pension Liability (Asset),
- Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions, and
- Pension Expense (Revenue).

Information about the fiduciary net position of the WRS and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by the WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Postemployment Benefits Other than Pensions

For purposes of measuring the net OPEB liability, deferred outflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the District OPEB Plan and additions to/deduction from District OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by District OPEB plan. For this purpose, District OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms.

#### Classification of Revenue and Expense

The District has classified its revenues and expenses as either operating or nonoperating according to the following criteria:

**Operating Revenues/Expenses:** Operating revenues and expenses include activities that have the characteristics of exchange transactions to provide goods or services related to the District's principal ongoing operations. Operating revenues include (1) student tuition and fees, net of scholarship allowances and estimated uncollectible amounts; (2) sales and services of auxiliary enterprises and (3) most federal, state and local grants and contracts that are essentially the same as contracts for services that finance programs of the college. Operating expenses include the cost of providing educational services, administration expenses and depreciation on capital assets.

## Milwaukee Area Technical College District

---

### Notes to Financial Statements

June 30, 2025 and 2024

**Nonoperating Revenues/Expenses:** Nonoperating revenues and expenses include activities that have the characteristics of nonexchange transactions. Nonoperating revenues include (1) gifts and contributions and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting* and GASB Statement No. 34, such as state appropriations, the local property tax levy and investment income and (2) any grants and contracts that are not classified as operating revenue or restricted by the grantor to be used exclusively for capital programs. Nonoperating expenses include interest on long-term obligations.

### Net Position

Net position is classified according to restrictions or availability of resources for satisfaction of District obligations.

**Net Investment in Capital Assets:** This represents the net value of capital assets (land, buildings and equipment) less the debt incurred to acquire or construct these assets presently in use plus any unspent debt proceeds.

**Restricted Net Position:** Restricted net position include resources in which the District is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

- Restricted net position for debt service can only be used to repay debt service costs (principal and interest) as they are levied for that specific purpose.
- Restricted net position for student financial assistance can only be used for student financial assistance activities.
- Restricted net position for pensions can only be used for pension activities.

**Unrestricted Net Position:** Unrestricted net position represent resources derived from student tuition and fees, state appropriations and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the District and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty and staff.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the District's policy is to first apply the expense towards restricted resources and then towards unrestricted resources.

## 2. Cash, Cash Equivalents and Investments

Wisconsin Statute 66.0603 authorizes the District to invest in the following types of instruments:

- Time deposits in any credit union, bank, savings bank, trust company or savings and loan association that is authorized to transact business in Wisconsin if the time deposit matures in not more than three years.
- Bonds or securities issued or guaranteed as to principal or interest by the federal government or by a commission, board or other instrumentality of the federal government (U.S. Treasuries and U.S. Agencies)

### Notes to Financial Statements

June 30, 2025 and 2024

- Any security with the highest or second highest rating category assigned by Standard & Poor's Corporation, Moody's Investors Services or other similar nationally recognized rating agency or if the security is senior to or on a parity with, a security of the same issue which has such a rating.
- Other prudent investment approved prior to purchase by the Board, conforming to sec. 66.04(2) of the Wisconsin Statutes.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income.

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF) and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At June 30, 2025 and 2024, the fair value of the District's share of the LGIP's assets was substantially equal to the amount as reported in these statements.

In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$1,000,000. However, due to the relatively small size of the Guarantee Fund in relationship to the total deposits covered and other legal implications, recovery of material principal losses may not be significant to individual municipalities. This coverage has not been considered in computing the amounts below.

### Custodial Risk

Custodial credit risk is the risk that in the event of a financial institution failure, the District's deposits may not be returned to the District.

### Deposits

The District's carrying value for demand deposits was \$5,279,998 at June 30, 2025 and \$722,949 at June 30, 2024 and the bank's carrying values were \$10,110,758 and \$4,040,200, respectively. ## Notes to Financial Statements

June 30, 2025 and 2024

The District categorizes its fair value measurement within the fair value hierarchy established by generally accepted accounting standards. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The valuation methods for recurring fair value measurements follows the market approach using quoted market prices and inputs other than quoted prices that are observable for securities, either directly or indirectly.

Debit and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Private Equity Funds and Reinsurance investments classified as Level 3 are valued using the fair market value.

### 3. Property Tax

The District's local property tax is apportioned each fall, based on the equalized value as established by the State of Wisconsin - Department of Revenue, to the various collecting municipalities within the service area. The District records as revenue its share of the property tax in the year it is levied.

The debt service property tax mill rate per \$1,000 of equalized valuation is not limited by state law.

Property tax revenue recognized in the financial statements total \$95,121,120 and \$93,270,756 for the years ended June 30, 2025 and 2024, respectively, which includes the District's property tax levy and miscellaneous other tax collection related adjustments.

As of July 1, 2019, the District joined the Wisconsin Technical College Employee Benefits Consortium (WTCEBC). The main purpose of WTCEBC is to jointly self-insure certain risks up to an agreed upon retention limit and to obtain excess catastrophic coverage and aggregate stop-loss reinsurance over the selected retention limit.

### Notes to Financial Statements

June 30, 2025 and 2024

The claims payment process is based upon the fiscal year. Individual claims below \$100,000 are self-funded by the District. Any individual claim exceeding \$100,000 and up to \$250,000, is shared in a pooled layer among Full Member Colleges participating in the WTCEBC. Individual claims over \$250,000 for each College are aggregated and are initially subject to an Aggregating Specific Deductible of \$977,584. Once the Aggregating Specific Deductible is met, any individual claim exceeding \$250,000 is subject to reinsurance. The reinsurance reimbursements are also shared by the Colleges.

Changes in the claims liability amounts recorded as accrued liability in the accompanying financial statements for the year's ended June 30, 2023, 2024 and 2025 follow:

<u>Fiscal Year</u>	<u>Liability July 1</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Liability June 30</u>

### Districts Mutual Insurance Company (DMI)

In July 2004, all sixteen WTCS technical colleges created Districts Mutual Insurance Company (DMI). Districts Mutual Insurance Company is a fully assessable mutual company authorized under Wisconsin statute 611 to provide property, casualty and liability insurance and risk management services to its members. The scope of insurance protection provided by DMI is broad, covering property at \$400,000 per occurrence; general liability, auto and educators' legal liability at \$5,000,000 per occurrence; and workers' compensation at the statutorily required limits.

At this time, settled claims have not approached the coverage limits as identified above. The District's exposure in its layer of insurance is limited to \$5,000 to \$100,000 per occurrence depending on the type of coverage and DMI purchases reinsurance for losses in excess of its retained layer of coverage.

DMI is governed by the Wisconsin Technical College Insurance Trust, organized under Wisconsin statutes 66.0301. The Trust is governed by a board of trustees consisting of one trustee from each member college. Member entities include all sixteen Wisconsin Technical College System districts. DMI operations are governed by a five-member board of directors. Member colleges do not exercise any control over the activities of DMI beyond election of the board of directors at the annual meeting. The board has the authority to adopt its own budget, set policy matters and control the financial affairs of the company.

Each member college was assessed an annual premium that included a capitalization component to establish reserves for the company. Future premiums will be based on relevant rating exposure bases as well as the historical loss experience by members. DMI's ongoing operational expenses, other than loss adjustment expenses, are apportioned pro rata to each participant based on equity interest in the company.

The DMI financial statements can be obtained through District Mutual Insurance, 212 West Pinehurst Trail, Dakota Dunes, South Dakota 57049.

### Supplemental Insurance

In July 1997, eleven of the sixteen WTCS technical colleges formed the WTCS Insurance Trust to jointly purchase commercial insurance to provide coverage for losses from theft of, damages to or destruction of assets. This trust grew to include fifteen WTCS technical colleges. In order to achieve additional cost savings, the technical colleges made a decision to form their own insurance company.

## 7. Retirement Systems

### Wisconsin Retirement System (WRS) - Current Year

#### Plan Description

The WRS is a cost-sharing multiple-employer defined benefit pension plan. Chapter 40 of the Wisconsin Statutes establishes WRS benefits and other plan provisions. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

### **Notes to Financial Statements**

June 30, 2025 and 2024

Additionally, ETF issued a standalone Wisconsin Retirement System Financial Report, which can also be found using the link above.

#### **Vesting**

For employees beginning participation on or after January 1, 1990 and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998 and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

#### **Benefits Provided**

Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants) are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service and (3) a formula factor.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions as required. The formula factor is a standard percentage based on employment category.

Employees may retire at age 55 (50 for protective occupation employees) and receive reduced benefits. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefits.

The WRS also provides death and disability benefits for employees.

#### **Postretirement Adjustments**

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the floor) set at retirement.

The Core and Variable annuity adjustments granted during recent years are as follows:

<u>Years</u>	<u>Core Fund Adjustment (%)</u>	<u>Variable Fund Adjustment (%)</u>
2015	2.9	2.0
2016	0.5	(5.0)

2022	7.4	15.0
2023	1.6	(21.0)
2024	3.6	15.0

### Contributions

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$8,561,941 in contributions from the employer.

Contribution rates for the year ended June 30, 2025 are:

	<u>Employee</u>	<u>Employer</u>
July 1, 2024 - December 31, 2024	6.90 %	6.90 %
January 1, 2025 - June 30, 2025	6.95	6.95

### Pension Liability (Asset), Pension Expense (Revenue) and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the District reported a liability of \$10,027,948 for its proportionate share of the net pension liability (asset). The net pension liability was measured as of December 31, 2024 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2023 rolled forward to December 31, 2024. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers.

At December 31, 2024, the District's proportion was 0.61028233%, which was a decrease of 0.03331939% from its proportion measured as of December 31, 2023.

For the year ended June 30, 2025, the District recognized pension expense of \$13,725,163.

### Actuarial Assumptions

The total pension liability in the December 31, 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2023
Measurement Date of Net Pension Liability (Asset):	December 31, 2024
Experience Study:	January 1, 2021 - December 31, 2023 Published November 19, 2024
Actuarial Cost Method:	Entry Age Normal
Asset Valuation Method:	Fair Value
Long-Term Expected Rate of Return:	6.8%
Discount Rate:	6.8%
Salary Increases:	
Inflation	3.0%
Seniority/Merit	0.1%-5.7%
Mortality:	2020 WRS Experience Mortality Table
Postretirement Adjustments*	1.7%

\* No postretirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.7% is the assumed annual adjustment based on the investment return assumption and the postretirement discount rate. Includes the impact of known Market Recognition Account deferred gains/losses on the liability for dividend payments.

Actuarial assumptions are based upon an experience study conducted in 2024 that covered a three-year period from January 1, 2021 to December 31, 2023. Based on this experience study, actuarial assumptions used to measure the Total Pension Liability changed from prior year, including seniority (merit) and separation rates. The Total Pension Liability for December 31, 2024 is based upon a roll-forward of the liability calculated from the December 31, 2023 actuarial valuation.

### Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<b>Asset Allocation Targets and Expected Returns* as of December 31, 2024</b>			
<b>Core Fund Asset Class</b>	<b>Current Asset Allocation %</b>	<b>Long-Term Expected Nominal Rate of Return %</b>	<b>Long-Term Expected Real Rate of Return %**</b>
Public Equity	38	7.0	4.3
Public Fixed Income	27	6.1	3.4
Inflation Sensitive	19	4.8	2.1
Real Estate	8	6.5	3.8
Private Equity/Debt	20	9.5	6.7
Leverage***	(12)	3.7	1.1
Total Core Fund	100	7.5	4.8
<b>Variable Fund Asset Class</b>			
U.S. Equities	70	6.5	3.8
International Equities	30	7.4	4.7
Total Variable Fund	100	6.9	4.2

\* Asset Allocations are managed within established ranges; target percentages may differ from actual monthly allocations

\*\* New England Pension Consultants' Long-Term U.S. CPI (Inflation) Forecast: 2.6%

\*\*\* The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower-volatility assets, such as fixed income securities. Currently, an asset allocation target of 12% policy leverage is used, subject to an allowable range of up to 20%.

#### Single Discount Rate

A single discount rate of 6.8% was used to measure the total pension liability for the current and prior year. This discount rate is based on the expected rate of return on pension plan investments of 6.8% and a municipal bond rate of 4.08% (Source: "20-Bond GO Index" is the Bond Buyer Index, general obligation, 20 years to maturity, mixed quality as of December 31, 2024. In describing this index, the Bond Buyer notes that the bonds' average quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard and Poor's Corp.'s AA.) Because of the unique structure of WRS, the 6.8% expected rate of return implies that a dividend of approximately 1.7% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the investment rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Sensitivity of the District's Proportionate Share of the Net Pension Liability (Asset) in the Discount Rate

The following presents the District's proportionate share of the net pension liability (asset) calculated using the discount rate of 6.8%, as well as what the District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.8%) or 1-percentage-point higher (7.8%) than the current rate:

	1% Decrease to Discount Rate (5.8%)	Current Discount Rate (6.8%)	1% Increase to Discount Rate (7.8%)
MATC's proportionate share of the net pension liability (asset)	\$ 94,075,253	\$ 10,027,948	\$ (49,685,249)

#### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <http://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

#### Wisconsin Retirement System (WRS) - Prior Year

##### Plan Description

The WRS is a cost-sharing multiple-employer defined benefit pension plan. Chapter 40 of the Wisconsin Statutes establishes WRS benefits and other plan provisions. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

#### Vesting

For employees beginning participation on or after January 1, 1990 and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998 and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

#### Benefits Provided

Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants) are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service and (3) a formula factor.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions as required. The formula factor is a standard percentage based on employment category.

Employees may retire at age 55 (50 for protective occupation employees) and receive reduced benefits. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefits.

The WRS also provides death and disability benefits for employees.

#### Postretirement Adjustments

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the floor) set at retirement.

The Core and Variable annuity adjustments granted during recent years are as follows:

<u>Years</u>	<u>Core Fund Adjustment (%)</u>	<u>Variable Fund Adjustment (%)</u>
2014	4.7	25.0
2015	2.9	2.0
2016	0.5	(5.0)
2017	2.0	4.0
2018	2.4	17.0
2019	0.0	(10.0)
2020	1.7	21.0
2021	5.1	13.0
2022	7.4	15.0
2023	1.6	(21.0)

#### Contributions

## Milwaukee Area Technical College District

### Notes to Financial Statements

June 30, 2025 and 2024

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$8,202,297 in contributions from the employer.

Contribution rates for the year ended June 30, 2024 are:

	<b>Employee</b>	<b>Employer</b>
July 1, 2023 - December 31, 2023	6.80 %	6.80 %
January 1, 2023 - June 30, 2024	6.90	6.90

#### **Pension Liability (Asset), Pension Expense (Revenue) and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2024, the District reported a liability of \$9,569,109 for its proportionate share of the net pension liability (asset). The net pension liability was measured as of December 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2022 rolled forward to December 31, 2023. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers.

At December 31, 2023, the District's proportion was 0.64360172%, which was a decrease of 0.02415800% from its proportion measured as of December 31, 2022.

For the year ended June 30, 2024, the District recognized pension expense of \$6,315,959.

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between projected and actual experiences	\$ 38,582,552	\$ 51,102,827
Changes of actuarial assumptions	4,170,899	-
Net differences between projected and actual investment earnings on pension plan investment	33,346,789	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	458,468	31,695

\$4,544,342 reported as deferred outflows of resources related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as an addition to the net pension liability (asset) in the year ending June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

### Actuarial Assumptions

The total pension liability in the December 31, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2022
Measurement Date of Net Pension Liability (Asset):	December 31, 2023
Experience Study:	January 1, 2018 - December 31, 2020 Published November 19, 2021
Actuarial Cost Method:	Entry Age Normal
Asset Valuation Method:	Fair Value
Long-Term Expected Rate of Return:	6.9%
Discount Rate:	6.9%
Salary Increases:	
Inflation	3.0%
Seniority/Merit	0.1%-5.6%
Mortality:	2020 WRS Experience Mortality Table
Postretirement Adjustments*	1.7%

\* No postretirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.7% is the assumed annual adjustment based on the investment return assumption and the postretirement discount rate.

Actuarial assumptions are based upon an experience study in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. The total pension liability for December 31, 2023 is based upon a roll-forward of the liability calculated from the December 31, 2022 actuarial valuation.

#### Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<b>Asset Allocation Targets and Expected Returns* as of December 31, 2023</b>			
<b>Core Fund Asset Class</b>	<b>Current Asset Allocation %</b>	<b>Long-Term Expected Nominal Rate of Return %</b>	<b>Long-Term Expected Real Rate of Return %**</b>
Public Equity	40	7.6	4.5
Public Fixed Income	27	5.8	3.0
Inflation Sensitive	19	4.4	1.7
Real Estate	8	5.8	3.0
Private Equity/Debt	18	9.6	6.7

<b>Variable Fund Asset Class</b>			
U.S. Equities	70	6.8	4.0
International Equities	30	7.6	4.8

\* Asset Allocations are managed within established ranges; target percentages may differ from actual monthly allocations

\*\* New England Pension Consultants' Long-Term U.S. CPI (Inflation) Forecast: 2.7%

\*\*\* The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower-volatility assets, such as fixed income securities. This results in an asset allocation beyond 100%. Currently, an asset allocation target of 15% policy leverage is used subject to an allowable range of up to 20%.

#### Single Discount rate

A single discount rate of 6.8% was used to measure the total pension liability for the current and prior year. This discount rate is based on the expected rate of return on pension plan investments of 6.8% and a municipal bond rate of 4.05% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2022. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.) Because of the unique structure of WRS, the 6.8% expected rate of return implies that a dividend of approximately 1.7% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the investment rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Sensitivity of the District's Proportionate Share of the Net Pension Liability (Asset) in the Discount Rate

The following presents the District's proportionate share of the net pension liability (asset) calculated using the discount rate of 6.8%, as well as what the District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.8%) or 1-percentage-point higher (7.8%) than the current rate:

	1% Decrease to Discount Rate (5.8%)	Current Discount Rate (6.8%)	1% Increase to Discount Rate (7.8%)
MATC's proportionate share of the net pension liability (asset)	\$ 92,490,060	\$ 9,569,109	\$ (48,454,189)

Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

### Contributions

The MATC District Board grants the authority to establish and amend the contribution requirements of the District. The Board establishes rates based on an actuarially determined rate. For the year ended June 30, 2025 and 2024, the District's average contribution rate was 10.41% and 7.90% of covered-employee payroll, respectively. Plan members are required to contribute to the plan.

### Investment Policy

The Trust's policy concerning the allocation of invested assets is established and may be amended by the MATC Board. It is the policy of the MATC Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. Securities held in the Trust need not represent a cross section of the economy. However, in order to achieve a prudent level of portfolio diversification the Securities of any company or government agency cannot exceed 10% (at Cost) of a manager's total product and no more than 40% of the total product may be invested in any one industry sector. Individual Securities may represent 50% of the total Product, while the total allocation to Treasury bond and notes may vary up to 100% of the Fund's Aggregate bond position.

### Concentrations

The investment portfolio included the following concentrations over 5%:

Issuer	Investment Type	Percentage of Portfolio	
		2025	2024
Baird Core Plus Bond	Mutual Fund Equity	7.3 %	6.4 %

### Rate of Return

For the year ended June 30, 2025 and 2024, the annual money-weighted rate of return on investments, net of investment expense, was 12.2% and 15.3%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### Net and Total OPEB Liability of the Milwaukee Area Technical College District

##### Actuarial Assumptions

The net OPEB liability and total OPEB liability were determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Measurement dates:

For June 30, 2025 liabilities	June 30, 2025
For June 30, 2024 liabilities	June 30, 2024

Actuarial valuation date: June 30, 2025

Inflation: 2.0%

Salary increases: 2.0%

Investment rate of return: 6.56%

Healthcare cost trend rates: 7.56% initially 6.56% for post-Medicare) decreasing 0.30% each year for ten years and 0.10 % per year thereafter until reaching the ultimate rate of 4.0%.

As of June 30, 2025, the mortality projection scale used was the PUB-2010 base mortality table projected using Scale-2021.

The actuarial assumptions used in the June 30, 2025 valuations were based on the results of an actuarial experience study for the period July 1, 2021 to June 30, 2023.

##### Discount Rate

The discount rate used to measure the total OPEB liability was 6.56%. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates.

##### Single Rate Option

Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability

##### Plan Description

###### Plan Administration

The District administers the Milwaukee Area Technical College OPEB Trust, a single-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for eligible teachers and administrators.

Management of the OPEB Trust is vested in the Investment and OPEB Oversight Committee, which is comprised of the Vice President of Finance, District Board Treasurer and General Counsel.

###### Benefits Provided

The plan provides medical and life insurance benefits to eligible retirees and their spouses through the District's group medical and life insurance plans, which cover both active and retired members. The eligibility requirements and the amount of the benefit vary based on retiree's position, years of service and age at retirement. If eligible, the retiree may receive half of the medical insurance benefits paid once they reach the age of 65. The plan is administered by the District. The MATC Postemployment Benefits Trust is accounted for and prescribed as a fiduciary fund and does not issue a stand-alone financial report. Plan eligibility is as follows:

### Basis of Accounting

The plan's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

### Contributions

The MATC District Board grants the authority to establish and amend the contribution requirements of the District. The Board establishes rates based on an actuarially determined rate. For the year ended June 30, 2024 and 2023, the District's average contribution rate was 7.90% and 6.67% of covered-employee payroll, respectively. Plan members are required to contribute to the plan.

### Investment Policy

The Trust's policy concerning the allocation of invested assets is established and may be amended by the MATC Board. It is the policy of the MATC Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. Securities held in the Trust need not represent a cross section of the economy. However, in order to achieve a prudent level of portfolio diversification the Securities of any company or government agency cannot exceed 10% (at Cost) of a manager's total product and no more than 40% of the total product may be invested in any one industry sector. Individual Securities may represent 50% of the total Product, while the total allocation to Treasury bond and notes may vary up to 100% of the Fund's Aggregate bond position.

### Concentrations

#### Rate of Return

For the year ended June 30, 2024 and 2023, the annual money-weighted rate of return on investments, net of investment expense, was 15.3% and 10.7%, respectively. #### Net and Total OPEB Liability of the Milwaukee Area Technical College District

##### Actuarial Assumptions

The net OPEB liability and total OPEB liability were determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Measurement dates:

For June 30, 2024 liabilities	June 30, 2024
For June 30, 2023 liabilities	June 30, 2023

Actuarial valuation date: June 30, 2024

Inflation: 2.0%

Salary increases: 2.0%

Investment rate of return: 6.74%

Healthcare cost trend rates: 7.75% initially 96.75% for post-Medicare) decreasing 0.30% each year for ten years and 0.10 % per year thereafter until reaching the ultimate rate of 4.0%.

As of June 30, 2024, the mortality projection scale was the PUB-2010 base mortality table projected using Scale-2021.

The actuarial assumptions used in the June 30, 2024 valuations were based on the results of an actuarial experience study for the period July 1, 2021 to June 30, 2023.

#### Discount Rate

The discount rate used to measure the total OPEB liability was 6.74%. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates.

#### Single Rate Option

Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

### 12. Contingent Liabilities

There are several pending lawsuits in which the District is named as a defendant. Corporation counsel estimates the potential claims not covered by insurance resulting from such litigation would not materially affect the financial statements.

The District participates in a number of federal and state financial assistance programs, principal of which are the Pell Grant, Guaranteed Student Loan and Vocational Education programs. The amount, if any, of expenses which may be disallowed by the granting agencies cannot be determined at this time, although such amounts, if any, are expected to be immaterial.

In compliance with Wisconsin Department of Natural Resources (WDNR) landfill closure protocol, the District continues to conduct required monitoring events at the former municipal solid waste landfill owned by the District. A landfill closure plan was approved by the WDNR and remedial work began at the site in 1997 and was substantially completed during the 2000 fiscal year. In 2006, 2008 and 2009, reduction in the frequency and sampling parameter monitoring requirement requests were approved by the WDNR. Investigation and cleanup costs incurred through June 30, 2012, were approximately \$3,055,000. WDNR regulation currently requires semi-annual groundwater sampling and annual methane gas point monitoring. The City also requires the District to have a stormwater maintenance plan, which must be recertified every five years. In FY2023-24, the District budgeted \$40,000 to maintain and monitor the site. Future costs may be higher due to changes in regulations and rapidly changing technology. In the opinion of management, any changes in estimated environmental cleanup and monitoring costs will not have a material adverse effect on the financial statements.

June 30, 2025 and 2024

On July 10, 2020, the Milwaukee Area Technical College District entered into a seven-year student housing affiliation and guaranty agreement with JS 1962 Master Tenant, LLC. #### Nature of Activities and Summary of Significant Accounting Policies

**Nature of Activities** - Milwaukee Area Technical College Foundation, Inc. (the Foundation) is a nonprofit organization organized and operated to secure community involvement with, including financial support of, Milwaukee Area Technical College (MATC). The specific purposes of the Foundation are to solicit, hold, manage, invest and expend contributions, grants and bequests (including endowment gifts) exclusively for the maintenance, support and benefit of MATC. Milwaukee PBS (MPBS) is a program of the Foundation operated by MATC and consists of two traditional television stations, WMVS and WMVT, which are licensed to MATC; four additional digital television services; a state-of-the-art production facility; the website MPBS.org; the monthly magazine Fine Tuning; and serves as the hands-on training facility for MATC students enrolled in the Television and Video Production program. In addition, the Foundation acts as the depository of contributions for the benefit of MPBS. All contributions received related to MPBS are considered contributions with donor restrictions. As MATC incurs expenses relating to MPBS, MATC requests reimbursement from the Foundation at which time the contributions are released from restriction.

### Notes to Financial Statements

June 30, 2025 and 2024

**Net Assets** - Net assets, revenues, gains and losses are classified based on the existence or absence of donor or grantor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

**Net Assets Without Donor Restrictions** - Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions.

**Net Assets With Donor Restrictions** - Net assets subject to donor- (or certain grantor-) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates those resources be maintained in perpetuity. Gifts of long-lived assets and gifts of cash restricted for the acquisition of long-lived assets are recognized as revenue when the assets are placed in service.

**Accounting Estimates** - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

**Subsequent Events** - The financial statements include management's evaluation of the events and transactions occurring subsequent to June 30, 2025 through September 24, 2024, which is the date the financial statements were available to be issued.

**Functional Allocation of Expenses** - The costs of program and supporting services activities have been summarized on a functional basis in the statements of activities. The statements of functional expenses present the natural classification detail of expenses by function. Accordingly, certain costs have been allocated on a reasonable basis that is consistently applied. The expenses that are allocated include salaries, wages and employee benefits which are allocated based on time and effort and information technology, occupancy and in-kind operating expenses which are allocated based on estimated usage.

**Restricted Cash** - The Foundation holds and manages contributions for the benefit of MPBS under agreements between the Foundation and MATC. Funds not invested are held in a separate cash account solely for the benefit of MPBS.

**Promises to Give** - The Foundation records unconditional promises to give that are expected to be collected within one year at net realizable value. Unconditional promises to give expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the statements of activities. The Foundation determined the allowance for uncollectible promises to give based on historical experience, an assessment of economic conditions and a review of subsequent collections. Promises to give are written off when deemed uncollectible. No allowance was considered necessary as of June 30, 2025 and 2024.

**Investments** - The Foundation records investment purchases at cost or if donated, at fair value on the date of donation. Thereafter, investments are reported at their fair values in the statements of financial position. Net investment return (loss) is reported in the statements of activities and consists of interest and dividend income, realized and unrealized capital gains and losses, less external and direct internal investment expenses. See Note 3 for discussion of fair value measurement.

The Foundation utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the Foundation's account balances and the amounts reported in the financial statements.

### Notes to Financial Statements

June 30, 2025 and 2024

**Revenue and Revenue Recognition** - Contributions are recognized when cash, securities or other assets, an unconditional promise to give or notification of a beneficial interest is received. Conditional promises to give - that is, those with a measurable performance or other barrier and a right of return - are not recognized until the conditions on which they depend have been met. The Foundation had no conditional contributions as of June 30, 2025 and 2024. Contributions restricted by donors are reported as increases in net assets without donor restrictions if the restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in net assets with donor restrictions, depending on the nature of the restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

**Income Taxes** - The Foundation is organized as a Wisconsin nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Internal Revenue Code (IRC) Section 501(a), as an organization described in IRC Section 501(c)(3) qualifies for the charitable contribution deduction under IRC Sections 170(b)(1)(A)(vi) and has been determined not to be a private foundation under IRC Sections 509(a)(1). The Foundation is required to file a Return of Organization Exempt from Income Tax (Form 990) annually with the IRS. Management has determined that the Foundation is not subject to unrelated business income tax and has not filed an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS.

The Foundation analyzed the requirements for accounting for uncertain tax positions and determined that it was not required to record a liability related to uncertain tax positions as of June 30, 2025 or 2024. With few exceptions, the Foundation is no longer subject to federal income tax examinations by tax authorities for years before 2019 and state income tax examinations for years before 2018.

**Financial Instruments, Credit Risk and Other Concentrations** - Deposit concentration risk is managed by placing cash, money market accounts and certificates of deposit with financial institutions that management believes to be creditworthy. At times, amounts on deposit may exceed insured limits or include uninsured investments in money market mutual funds. To date, the Foundation has not experienced losses in any of these accounts. Credit risk associated with promises to give is considered to be limited due to high historical collection rates and because substantial portions of the outstanding amounts are due from board members, individuals and foundations supportive of the mission. Investments are made by diversified investment managers whose performance is monitored by management and the investment committee of the Board of Directors. Although the fair values of investments are subject to fluctuation on a year-to-year basis, the investment committee believes that the investment policies and guidelines are prudent for the long-term welfare of the Foundation.

During the year ended June 30, 2025, the Foundation received approximately 21% of total contributions from one donor.

Income from the board designated endowment is restricted for the benefit of MPBS.

### Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical investments (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Valuation is based upon quoted prices in active markets for identical investments.

Level 2 - Valuation is based upon other significant observable inputs (including quoted prices for similar investments).

Level 3 - Valuation is based upon significant unobservable inputs (including the Foundation's assumptions in determining the fair value of investments).

Following is a description of the valuation methodology used for the Foundation's assets measured at fair value:

**Fixed Income and Equity Securities:** Fair value is generally determined based on quoted market prices of each individual security held at the close of the period.

**Money Market Funds:** Valued by the custodians of the securities using multiple sources of information that are corroborated by market data.

## Notes to Financial Statements

June 30, 2025 and 2024

**Limited Partnership and REIT:** The limited partnership and real estate investment trust (REIT) are valued at net asset value (NAV), which is an amount equal to the ownership interest in the partners' capital and used as a practical expedient to estimate fair value. Both the limited partnership and REIT benchmark the NFI-ODEC as an investment strategy with a commitment to protect liquidity. The Foundation has no unfunded commitments. The limited partnership has quarterly redemptions with a 90-day notice period. The REIT has quarterly redemptions with a 30-day notice period.

The following tables set forth by level, within the fair value hierarchy, the Foundation's assets at fair value.

### Notes to Financial Statements

June 30, 2025 and 2024

Unconditional promises to give are estimated to be collected as follows at June 30, 2025 and 2024:

	2025	2024
Within one year	\$ 758,844	\$ 1,053,828
In one to five years	567,066	1,070,684
	1,325,910	2,124,512
Less discount to net present value	(53,740)	(119,486)
	<u>\$ 1,272,170</u>	<u>\$ 2,005,026</u>

### Endowment

The Endowment consists of 81 individual funds established by donors to provide annual funding for specific activities and general operations. The Endowment also includes certain net assets that have been designated for endowment by the Board of Directors to benefit the MPBS. This endowment was created using contributions restricted by donors for the benefit of MPBS and is therefore shown as donor restricted.

The Foundation's Board of Directors has interpreted the Wisconsin Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the date of the donor-restricted endowment funds, unless there are explicit donor stipulations to the contrary. At June 30, 2025 and 2024, there were no such donor stipulations. As a result of this interpretation, the Foundation retains in perpetuity (a) the original value of initial and subsequent gift amounts (including promises to give at fair value) donated to the Endowment and (b) any accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. Donor-restricted amounts not retained in perpetuity are subject to appropriation for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA. The Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the Foundation and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Foundation
- The investment policies of the Foundation

## Notes to Financial Statements

June 30, 2025 and 2024

As of June 30, 2025 and 2024, the endowment net asset composition by type of fund is as follows:

June 30, 2025	With Donor Restrictions
Donor, restricted endowment funds:	
Original donor, restricted gift amount and amounts required to be maintained in perpetuity by donor	\$ 5,255,691
Total	\$ 5,255,691
June 30, 2024	With Donor Restrictions
Donor, restricted endowment funds:	
Original donor, restricted gift amount and amounts required to be maintained in perpetuity by donor	\$ 4,733,091
Total	\$ 4,733,091

From time-to-time, certain donor-restricted endowment funds may have fair values less than the amount required to be maintained by donors or by law (underwater endowments). The Foundation interpreted UPMIFA to permit spending from underwater endowments in accordance with prudent measures required by law. As of June 30, 2025 and 2024, there were no underwater endowments.

**Investment and Spending Policies** - The Foundation adopted investment and spending policies for the Endowment that attempt to provide a predictable stream of funding for operations while seeking to maintain the purchasing power of the endowment assets. Over time, long-term rates of return should be equal to an amount sufficient to maintain the purchasing power of the Endowment assets, to provide the necessary capital to fund the spending policy and to cover the costs of managing the Endowment investments. To satisfy this long-term rate-of-return objective, the investment portfolio is structured on a total-return approach through which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). A significant portion of the funds are invested to seek growth of principal over time.

An endowment spending-rate formula is used to determine the maximum amount to spend from the Endowment, including those endowments deemed to be underwater, each year. On a semiannual basis, the Foundation transfers 1.75% of the 20-quarter rolling average balance of each endowment fund to scholarships and programs. At the time of the transfer the funds are considered appropriated for expenditure by the Foundation. Individual endowment funds will not transfer a semiannual amount to scholarships and programs if the individual endowment fund balance is below \$10,000 and also reserves the right to withhold distributions if the Foundation is unable to identify sufficient program needs.

### Related-Party Transactions

The Foundation incurs expenses in the form of salaries, benefits, rent, maintenance and other operational expenses that are provided by MATC. MATC bills the Foundation for a portion of the services they provide. For each of the years ended June 30, 2025 and 2024, \$50,000 was paid for the services provided by MATC. Expenses incurred beyond the amounts paid are recorded as in-kind contributions and expenses. See separate note for amounts recorded as in-kind contributions and expenses.

The Foundation disburses scholarships, program grants and reimbursements related to MPBS activities and donated property and equipment to MATC. Amounts payable to MATC as of June 30, 2025 and 2024 totaled \$749,151 and \$281,295. As of June 30, 2025 and 2024, there were no amounts receivable from MATC.

### Notes to Financial Statements

June 30, 2025 and 2024

#### Contributed Nonfinancial Assets

The Foundation received the following contributions of nonfinancial assets for the years ending June 30:

	2025	2024
Contributed by MATC:		
Professional services	\$ 628,257	\$ 481,773
Other direct expenses	-	14,257
	628,257	496,030
Occupancy	28,000	-
Instructional equipment and supplies	117,682	57,832
Total contributed and nonfinancial assets	\$ 773,939	\$ 553,862

Contributed instructional equipment and supplies received by the Foundation are recognized as in-kind contribution revenue with a corresponding increase to program expenses on the statement of activities. Contributed goods are recorded at fair value at the date of donation. Contributed instructional equipment and supplies are disbursed to Milwaukee Area Technical College for use in their student course programs.

Contributed services are recognized as in-kind revenues at their estimated fair value if they create or enhance nonfinancial assets or require specialized skills that would need to be purchased if they were not donated. The Foundation record donated professional services at the respective fair values of the services received. The contributed professional services and other direct expenses are used for both program and supporting services and are allocated based on estimated usage by each program and supporting service.

Volunteers contribute significant amounts of time to program services, administration and fundraising and development activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by GAAP.

#### 15. Effect of New Accounting Standards on Current-Period Financial Statements

The Governmental Accounting Standards Board (GASB) has approved the following:

- Statement No. 103, *Financial Reporting Model Improvements*
- Statement No. 104, *Disclosure of Certain Capital Assets*

When they become effective, application of these standards may restate portions of these financial statements.

<sup>(1)</sup> Counties are responsible for the collection of delinquent taxes; thus, the District receives 100% of its levy.

<sup>(2)</sup> Due to varying assessment policies in the municipalities contained in the District, the District uses equalized value of taxable property for tax levy purposes. This equalized value of property approximates estimated actual (full) value of taxable property, excluding tax increments.

<sup>(3)</sup> District property tax rates are shown per \$1,000 of equalized value.

# Responsibilities

## Our responsibilities

As your independent auditor, our responsibilities include:

- Planning and performing the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. Reasonable assurance is a high level of assurance.
- Assessing the risks of material misstatement of the financial statements, whether due to fraud or error. Included in that assessment is a consideration of the District's internal control over financial reporting.
- Performing appropriate procedures based upon our risk assessment.
- Evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management.
- Forming and expressing an opinion based on our audit about whether the financial statements prepared by management, with the oversight of the Board of Education:
  - Are free from material misstatement
  - Present fairly, in all material respects and in accordance with accounting principles generally accepted in the United States of America
- Performing tests related to compliance with certain provisions of laws, regulations, contracts and grants, as required by *Government Auditing Standards*
- Considering internal control over compliance with requirements that could have a direct and material effect on major federal and major state programs to design tests of both controls and compliance with identified requirements
- Forming and expressing an opinion based on our audit in accordance with OMB's *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance) and *State Single Audit Guidelines* about the entity's compliance with requirements described in the *OMB Compliance Supplement* and *State Single Audit Guidelines* that could have a direct and material effect on each of its major federal and state programs.
- Our audit does not relieve management or the Board of Education of their responsibilities.

We are also required to communicate significant matters related to our audit that are relevant to the responsibilities of the Board of Education, including:

- Internal control matters
- Qualitative aspects of the District's accounting practice including policies, accounting estimates and financial statement disclosures
- Significant unusual transactions
- Significant difficulties encountered
- Disagreements with management
- Circumstances that affect the form and content of the auditors' report
- Audit consultations outside the engagement team
- Corrected and uncorrected misstatements
- Other audit findings or issues

# Audit status

## Significant changes to the audit plan

There were no significant changes made to either our planned audit strategy or to the significant risks and other areas of emphasis identified during the performance of our risk assessment procedures.

# Audit approach and results

## Planned scope and timing

### Audit focus

Based on our understanding of the District and environment in which you operate, we focused our audit on the following key areas:

- Key transaction cycles
- Areas with significant estimates
- Implementation of new accounting standards

Our areas of audit focus were informed by, among other things, our assessment of materiality. Materiality in the context of our audit was determined based on specific qualitative and quantitative factors combined with our expectations about the District's current year results.

## Key areas of focus and significant findings

### Significant risks of material misstatement

A significant risk is an identified and assessed risk of material misstatement that, in the auditor's professional judgment, requires special audit consideration. Within our audit, we focused on the following areas below.

Significant risk areas	Testing approach	Conclusion
Management override of controls	Incorporate unpredictability into audit procedures, emphasize professional skepticism and utilize audit team with industry expertise	Procedures identified provided sufficient evidence for our audit opinion
Improper revenue recognition due to fraud	Confirmation or validation of certain revenues supplemented with detailed predictive analytics based on nonfinancial data and substantive testing of related receivables	Procedures identified provided sufficient evidence for our audit opinion

### Other areas of emphasis

We also focused on other areas that did not meet the definition of a significant risk but were determined to require specific awareness and a unique audit response.

Other areas of emphasis		
Cash and investments	Revenues and receivables	General disbursements
Payroll	Pension and OPEB liabilities	Long-term debt
Capital assets	Net position calculations	Financial reporting and required disclosures

## Internal control matters

We considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing an opinion on the financial statements. We are not expressing an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis.

A material weakness is a deficiency or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

# Required communications

## Qualitative aspect of accounting practices

- Accounting policies: Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we have advised management about the appropriateness of accounting policies and their application. The significant accounting policies used by District are described in Note 1 to the financial statements. As described in Note 1, the District changed accounting policies related to compensated absences by adopting GASB 101, *Compensated Absences* in 2025. We noted no transactions entered into by the District during the year for which accounting policies are controversial or for which there is a lack of authoritative guidance or consensus or diversity in practice.
- Accounting estimates: Accounting estimates, including fair value estimates, are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements, the degree of subjectivity involved in their development and because of the possibility that future events affecting them may differ significantly from those expected. The following estimates are of most significance to the financial statements:

Estimate	Management's process to determine	Baker Tilly's conclusions regarding reasonableness
Accrued compensated absences	Evaluation of hours earned and accumulated in accordance with employment policies and average wage per hour rates	Reasonable in relation to the financial statements as a whole
Net pension liability and related deferrals	Evaluation of information provided by the Wisconsin Retirement System	Reasonable in relation to the financial statements as a whole
IBNR related to health and dental claims	Historical claims analysis and report provided by a 3 <sup>rd</sup> party administrator	Reasonable in relation to the financial statements as a whole
Allowance for doubtful accounts	Evaluation of historical revenues and loss levels with the analysis on collectability of individual amounts	Reasonable in relation to the financial statements as a whole
Net/Total OPEB liability and related deferrals	Key assumptions set by management with the assistance of a third party actuary	Reasonable in relation to the financial statements as a whole
Depreciation	Evaluate estimated useful life of the asset and original acquisition value	Reasonable in relation to the financial statements as a whole
Subscription assets/liabilities	Evaluation of subscriptions by management and incremental borrowing rate used for present value calculation	Reasonable in relation to the financial statements as a whole

There have been no significant changes made by management to either the processes used to develop the particularly sensitive accounting estimates or to the significant assumptions used to develop the estimates noted above.

- Financial statement disclosures: The disclosures in the financial statements are neutral, consistent and clear.

### **Significant unusual transactions**

There have been no significant transactions that are outside the normal course of business for the District or that otherwise appear to be unusual due to their timing, size or nature.

### **Significant difficulties encountered during the audit**

We encountered no significant difficulties in dealing with management and completing our audit.

### **Disagreements with management**

Professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting or auditing matter that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

### **Audit report**

There have been no departures from the auditors' standard report.

### **Audit consultations outside the engagement team**

We encountered no difficult or contentious matters for which we consulted outside of the engagement team.

### **Uncorrected misstatements and corrected misstatements**

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial and communicate them to the appropriate level of management. There were no misstatements identified.

### **Other audit findings or issues**

We encountered no other audit findings or issues that require communication at this time.

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

## **Other information in documents containing audited basic financial statements**

### ***Annual report***

The District's audited financial statements will be included in Annual Comprehensive Financial Report. Our responsibility for this information does not extend beyond the financial information identified in the audit report and we are not required to perform any procedures to corroborate such other information. We have read the Annual Comprehensive Financial Report to determine whether a material inconsistency exists between the other information and the financial statements. Nothing came to our attention that caused us to believe that such information or its manner of presentation, was materially inconsistent with the information or manner of its presentation, in the financial statements.

### ***Official statements***

The District's audited financial statements are "general purpose" financial statements. General purpose financial statements consist of the basic financial statements that can be used by a broad group of people for a broad range of activities. Once we have issued our audit report, we have no further obligation to update our report for events occurring subsequent to the date of our report. The District can use the audited financial statements in other client prepare documents, such as official statements related to the issuance of debt, without our acknowledgement. Unless we have been engaged to perform services in connection with any subsequent transaction requiring the inclusion of our audit report, as well as to issue an auditor's acknowledgment letter, we have neither read the document nor performed subsequent event procedures in order to determine whether or not our report remains appropriate.

## **Management's consultations with other accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that and to our knowledge, there were no consultations with other accountants regarding auditing or accounting matters.

## **Written communications between management and Baker Tilly**

The attachments include copies of other material written communications, including a copy of the management representation letter.

## **Compliance with laws and regulations**

We did not identify any noncompliance with laws and regulations during our audit.

## **Fraud**

We did not identify any known or suspected fraud during our audit.

## **Going concern**

Pursuant to professional standards, we are required to communicate to you, when applicable, certain matters relating to our evaluation of the District's ability to continue as a going concern for a reasonable period of time but no less than 12 months from the date of the financial statements, including the effects on the financial statements and the adequacy of the related disclosures and the effects on the auditor's report. No such matters or conditions have come to our attention during our engagement.

## **Group audits**

The District's financial statements include information that was audited by other auditors as follows:

- Milwaukee Area Technical College Foundation Inc., a discretely presented component unit of the District, Completed by Wegner CPAs LLP

In addition, if we had any concerns about the quality of work of the other auditors, if there were any limitations related to the group audit or if there was any fraud or suspected from involving group management, component management, employees who have significant roles in group-wide controls or others in which material misstatement of the group financial statements has or may have resulted from fraud we would be required to report those to you. We have not identified any circumstances that are required to be reported.

## **Independence**

We are not aware of any relationships between Baker Tilly and the District that, in our professional judgment, may reasonably be thought to bear on our independence.

## **Other matters**

We applied certain limited procedures to the required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the supplementary information which accompanies the financial statements but is not RSI. With respect to the supplementary information, we made certain inquiries of management and evaluated the form, content and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America the method of preparing it has not changed from the prior period and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the other information, which accompanies the financial statements but are not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

## **Nonattest services**

The following nonattest services were provided by Baker Tilly:

- Financial statement preparation
- Adjusting journal entries
- Preparation of Part II of the Data Collection Form

None of these nonattest services constitute an audit under generally accepted auditing standards, including *Government Auditing Standards*.

# Accounting changes relevant to Milwaukee Area Technical College District

## Future accounting standards update

GASB statement number	Description	Potentially impacts you	Effective date
103	Financial reporting model improvements	✓	6/30/26
104	Disclosure of certain capital assets	✓	6/30/26

Further information on upcoming [GASB pronouncements](#).

## Changes to the financial reporting model

GASB Statement 103, *Financial Reporting Model Improvements*, builds on Statement 34 by providing key targeted improvements to the financial reporting model. Its requirements are designed to:

- Enhance the effectiveness of governmental financial reports in providing information essential for decision making and assessing a government's accountability, and
- Address certain application issues.

The targeted improvements contained in Statement 103 establish or modify existing accounting and financial reporting requirements related to:

- Management's discussion and analysis - While the overall requirements do not substantially change management's discussion and analysis, the modifications are meant to improve the analysis included in this section and provide details about the items that should be discussed as currently known facts, decisions or conditions expected to have a significant financial effect in the subsequent period.
- Unusual or infrequent items (previously known as extraordinary and special items) - The new statement simplifies GASB literature by eliminating the separate presentation of extraordinary and special items. Under the requirement of Statement 103, applicable items will either be identified as unusual or infrequent or both.
- Presentation of the proprietary fund statement of revenues, expenses and changes in fund net position - The changes are designed to improve consistency around the classification of items in these statements by better defining what should be included in operating revenues and expenses and nonoperating revenues and expenses including, for example, the addition of subsidies received or provided as a new category of nonoperating revenues and expenses.
- Major component unit information and budgetary comparison information - Statement 103 is designed to improve the consistency of the reporting of major component unit information and budgetary comparison information by specifying required placement of that information.

## Revisions to disclosures for certain capital assets

Governments are required to provide information on capital assets in the footnotes to the financial statements as outlined in GASB Statement No. 34. Recent standards have impacted the accounting and reporting for capital assets and as a result GASB issued Statement No. 104, *Disclosure of Certain Capital Assets* to provide enhanced disclosures for certain capital assets, including

- (a) Lease assets reported under Statement No. 87, intangible right-to-use assets reported under Statement No. 94 and subscription assets reported under Statement No. 96 should all be disclosed separately and by major class of underlying asset. In addition, if there are any other intangible assets reported they should also be disclosed separately.
- (b) Capital assets that are held for sale should have the ending balance with separate disclosure for historical cost and related accumulated depreciation as well as any outstanding debt for which the asset is pledged as collateral disclosed by major class of asset. Assets held for sale are defined as those for which the government has decided to pursue the sale and it is probable that the sale will be finalized within one year of the financial statement date.

While these changes are focused on footnote disclosures it is important to plan ahead to ensure the required information is available for implementation.

# Two-way audit communications

As part of our audit of your financial statements, we are providing communications to you throughout the audit process. Auditing requirements provide for two-way communication and are important in assisting the auditor and you with more information relevant to the audit.

As this past audit is concluded, we use what we have learned to begin the planning process for next year's audit. It is important that you understand the following points about the scope and timing of our next audit:

- a. We address the significant risks of material misstatement, whether due to fraud or error, through our detailed audit procedures.
- b. We will obtain an understanding of the five components of internal control sufficient to assess the risk of material misstatement of the financial statements whether due to error or fraud and to design the nature, timing and extent of further audit procedures. We will obtain a sufficient understanding by performing risk assessment procedures to evaluate the design of controls relevant to an audit of financial statements and to determine whether they have been implemented. We will use such knowledge to:
  - Identify types of potential misstatements
  - Consider factors that affect the risks of material misstatement
  - Design tests of controls, when applicable and substantive procedures
- c. We will not express an opinion on the effectiveness of internal control over financial reporting or compliance with laws, regulations and provisions of contracts or grant programs. For audits performed in accordance with *Government Auditing Standards*, our report will include a paragraph that states that the purpose of the report is solely to describe the scope of testing of internal control over financial reporting and compliance and the result of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance and that the report is an integral part of an audit performed in accordance with Government Auditing standards in considering internal control over financial reporting and compliance. The paragraph will also state that the report is not suitable for any other purpose.
- d. The concept of materiality recognizes that some matters, either individually or in the aggregate, are important for fair presentation of financial statements in conformity with generally accepted accounting principles while other matters are not important. In performing the audit, we are concerned with matters that, either individually or in the aggregate, could be material to the financial statements. Our responsibility is to plan and perform the audit to obtain reasonable assurance that material misstatements, whether caused by errors or fraud, are detected.

Our audit will be performed in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, *OMB's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the *State Single Audit Guideline*.

We will not express an opinion on the effectiveness of internal control over financial reporting or compliance with laws, regulations and provisions of contracts or grant programs. For audits done in accordance with *Government Auditing Standards*, the Uniform Guidance and the *State Single Audit Guidelines*, our report will include a paragraph that states that the purpose of the report is solely to describe (a) the scope of testing of internal control over financial reporting and compliance and the result of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance, (b) the scope of testing internal control over compliance for major programs and major program compliance and the result of that testing and to provide an opinion on compliance but not to provide an opinion on the effectiveness of internal control over compliance and, (c) that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance and the Uniform Guidance and the *State Single Audit Guidelines*, in considering internal control over compliance and major program compliance. The paragraph will also state that the report is not suitable for any other purpose.

- e. Your financial statements contain components, as defined by auditing standards generally accepted in the United States of America, which we also audit.
- f. In connection with our audit, we intend to place reliance on the audit of the financial statements of the Milwaukee Area Technical College foundation, Inc, a discretely presented component unit of the of the District, as of June 30, 2025 and for the year then ended completed by Wegner CPAs LLP. All necessary conditions have been met to allow us to make reference to the component auditors.

We are very interested in your views regarding certain matters. Those matters are listed here:

- a. We typically will communicate with your top level of management unless you tell us otherwise.
- b. We understand that the governing board has the responsibility to oversee the strategic direction of your organization, as well as the overall accountability of the entity. Management has the responsibility for achieving the objectives of the entity.
- c. We need to know your views about your organization's objectives and strategies and the related business risks that may result in material misstatements.
- d. Which matters do you consider warrant particular attention during the audit and are there any areas where you request additional procedures to be undertaken?
- e. Have you had any significant communications with regulators or grantor agencies?
- f. Are there other matters that you believe are relevant to the audit of the financial statements?

Also, is there anything that we need to know about the attitudes, awareness and actions of the governing body concerning:

- a. The entity's internal control and its importance in the entity, including how those charged with governance oversee the effectiveness of internal control?
- b. The detection or the possibility of fraud?

We also need to know if you have taken actions in response to developments in financial reporting, laws, accounting standards, governance practices or other related matters or in response to previous communications with us.

With regard to the timing of our audit, here is some general information. If necessary, we may do preliminary financial audit work during the months of June-July and sometimes early in August. Our final financial fieldwork is scheduled during September to best coincide with your readiness and report deadlines. After fieldwork, we wrap up our financial audit procedures at our office and may issue drafts of our report for your review. Final copies of our report and other communications are issued after approval by your staff. This is typically 6-12 weeks after final fieldwork but may vary depending on a number of factors.

Keep in mind that while this communication may assist us with planning the scope and timing of the audit, it does not change the auditor's sole responsibility to determine the overall audit strategy and the audit plan, including the nature, timing and extent of procedures necessary to obtain sufficient appropriate audit evidence.

We realize that you may have questions on what this all means or wish to provide other feedback. We welcome the opportunity to hear from you.

### **Resolution to Approve WTCS 3-1: Concept Review Form For the Program Titled Fire Medic (10-531-2)**

#### ***Background Information:***

The Fire Medic AAS program prepares learners to respond to real-world emergencies with competence and confidence by developing their knowledge, understanding, technical, and critical thinking skills. Fire Medic students will learn about emergency medical and trauma care, firefighting, and rescue operations in a variety of settings beyond the classroom. Significant instruction takes place in skills and simulation labs, fire ground training facilities, clinical, and field settings.

The landscape of fire and emergency medical services in Wisconsin is undergoing a significant transformation. Many departments are moving away from a traditional volunteer-based model to a paid, professional workforce. This transition is necessitated by the increasing training requirements and call volumes, which make it difficult to rely solely on volunteers. A recent survey by the Wisconsin Office of Rural Health found that over half of the state's fire chiefs are concerned about having adequate staffing to respond to emergencies. This statewide trend is acutely felt in both Milwaukee and Ozaukee counties, where the demand for full-time, qualified personnel is growing.

#### ***Resolution***

BE IT RESOLVED, that the District Board of the Milwaukee Area Technical College submit a request to the Wisconsin Technical College System for consideration and approval of the **Fire Medic (10-531-2)** program.

## What is Lightcast Data?

Lightcast data is a hybrid dataset derived from official government sources such as the US Census Bureau, Bureau of Economic Analysis, and Bureau of Labor Statistics. Leveraging the unique strengths of each source, our data modeling team creates an authoritative dataset that captures more than 99% of all workers in the United States. This core offering is then enriched with data from online social profiles, resumés, and job postings to give you a complete view of the workforce.

Lightcast data is frequently cited in major publications such as *The Atlantic*, *Forbes*, *Harvard Business Review*, *The New York Times*, *The Wall Street Journal*, and *USA Today*.
